

The Penn State Action Club

Interactive Seminars in Motor Control and Coordination

Starting Time: Fridays 3.45 - 5.15 pm

Meeting Place: 127 Noll Lab

Organized by: Dagmar Sternad and Mark Latash

List of Speakers in Spring 2007:

- January 19*** Larry Snyder (Washington University)
- February 2*** Richard Nichols (Emory University)
- February 9*** Victor Candia (University of Konstanz, Germany)
- March 2/9*** t.b.a.
- March 23*** Rick Gilmore (Penn State)
- April 6*** Jae Kun Shim (University of Maryland)
- April 20*** Daniel Corcos (University of Illinois)
- May 3*** Scott Kelso (Florida Atlantic University)*

The seminar will provide a forum for indepth discussions of issues on motor control and coordination. It is interdisciplinary in nature, perspectives ranging from biomechanics, neurophysiology, psychology to philosophy. The sessions are aimed to be informal and highly interactive with no preset time limits. Speakers will have 10 minutes of uninterrupted presenting time. Thereafter, they may and should be interrupted whenever questions arise.

After the meeting there will be a gathering in honor of the speaker where food and drink is provided. Graduate students are encouraged to attend and to participate.

* This speaker will also give a talk at the departmental colloquium on the Thursday before Action Club.
