

## **Neurocognitive Rehabilitation Research Laboratory**

**Director:** Prudence Plummer-D'Amato, PhD

**Lab members:**

Colleen Dowd, BS, Kevin Kinnard, BS, Anastasia Kyvelidou, PhD, Briana Brancato, Mallory Dantowitz, Sarah Laskey, Patrick Rivera and Ricky Tapia

**Mission:**

The mission of the Neurocognitive Rehabilitation Research Lab is to conduct interdisciplinary research along two main themes: analysis of the interactions between cognition and motor functions; and the design, development and evaluation of rehabilitation strategies for people with deficits in cognitive function and/or motor control after neurological injury. A central focus of our research is the rehabilitation of walking in community-dwelling individuals with stroke. Dr. Plummer-D'Amato's research is supported by the American Heart Association.
