Nicholas Carr
talks about his new book
*The Glass Cage: Automation and Us*
at Northeastern University

MONDAY, OCTOBER 27, 2014

NOON • 240 DOCKSER HALL

In *The Glass Cage*, best-selling author Nicholas Carr digs behind the headlines about factory robots and self-driving cars, wearable computers and digitized medicine, as he explores the hidden costs of granting software dominion over our work and our leisure. Even as they bring ease to our lives, these programs are stealing something essential from us.

Following the presentation, there will be a book signing and reception with light refreshments. *The Glass Cage: Automation and Us* will be available for purchase.
