BIOL10120 Cell Biology & Genetics

Core Text:

Access to the online Mastering Biology - online homework that is required for the course.

It is recommended that you purchase this book on arrival at UCD, as the correct version will be available and in stock on campus.

CHEM10120 Introductory Chemistry for NUin Students

On-line text from Wiley (there is no printed version) and students will be given details of how to purchase access to the text when they begin classes in UCD. The online material includes self-assessment tests so it will be strongly recommended in preference to a physical text.

MATH10250 Introduction to Calculus for Engineers

Supporting Text:

There is no textbook because we have our own lecture notes which are posted on Blackboard**for the students.

However we recommend "Thomas' Calculus" by Finney, Weir, Giordano, and also "Engineering Mathematics" by Glyn James, for additional reading.

Please note that this book is available (in a large number of copies) in the UCD library. It is strongly recommended that student do not purchase this text, as it is expensive and not a requirement for this module (merely supports lecture notes etc.)

Please note that this booklist is provisional.
**Blackboard is an internal UCD online facility available to students. Thomas’ Calculus (any edition).**

**PSY10120 Introduction to Psychological Science**
