The purpose of NU DREAM is to provide personal and professional opportunities that will encourage staff of color to become more fulfilled members of the Northeastern University community.

NU Dream began as an initiative of the Notion in Motion program provided by the Enrollment Management & Student Affairs (EMSA) Division. It continues as a collaborative effort between EMSA & Office of Institutional Diversity & Inclusion (OIDI).
NUDREAM GOALS

To provide professional development opportunities for faculty and staff

To provide opportunities for faculty and staff to interact within their community

To provide opportunities for faculty and staff to improve upon personal and professional networks

To create networks for ongoing dialogue on issues impacting professional and career development
Participates will define professional goals and motivation

Participants will identify talents, strengths, and skills

Participants will strengthen current abilities

Participants will expand their personal and professional networks

To enhance sense of community among faculty/staff of color
NUDREAM monthly workshops or community building events focused on bringing together faculty and staff of color to designed to encourage personal and professional growth by increasing interaction, communication and community awareness.

TESTIMONIALS

N=42
Overall, my experience with NU Dream has been very positive, and I certainly would like NU Dream to continue their program. NU Dream events are also very well organized.

I generally feel motivated, inspired, and energized after going to NU Dream events. I also have expanded my NU network, and some lead to long term professional connection.

I feel more connected to the university in general. I learned many strategies and tips on professional development such as elevator pitch, how to manage our work, resources on campus that we can utilize, etc. NU Dream creates space for staff with diverse background to share experience, talk about how to handle challenges at workforce, and success stories.
"Discussion and practice for having difficult conversations around self-advocacy."

"Making sure that I'm not simply "current" but also that I'm "relevant" within my position."

"Loved the salary negotiation workshop. Super helpful for most people as it is a difficult topic."

"The strategies for professional development workshop!"

"Daily strategies for practicing self care at the workplace."
PROFESSIONAL DEVELOPMENT

I find the workshops or speakers to have been very informative and relevant to professional development.

What was great was that the professional development included personal development - it goes hand in hand.

I have learned from almost all of the speakers/workshops that I attended.

Great learning experience and learned a lot. Thank you!”
