This item was originally docketed as #244-30 in July 2019 and was subsequently held by the Council. The item was re-docketed this year as #37-20.

Established in 1993 under City Ordinance Chapter 22, Sections 22-60 through 22-75, Newton's Local Landmark Ordinance was created to serve as a municipal tool to preserve the City's most historically significant buildings. The Landmarks Ordinance in the City of Newton provides the highest level of protection for properties determined to be the most architecturally or historically significant. Under the Landmarks program, the Newton Historical Commission

can choose to permanently preserve buildings, structures, landscapes, and places that define the historic character of the city and have, over time, helped to establish a sense of place.

In addition to the Newton Historical Commission, the Mayor, members of the City Council, the Director of Planning and Development or the Commissioner of Inspectional Services may nominate properties as landmarks. Landmarks are designated at a public hearing of the Newton Historical Commission by a 3/4 vote of the Commission. In order to be eligible for Landmark status, a property must either be listed in or eligible for listing in the National Register of Historic Places.

Once a property becomes a local landmark, the Newton Historical Commission reviews proposed changes to landmarked properties as though they were included in a local historic district. This means that any alterations to the exterior of the structure, such as demolition, additions, renovations, deterioration by neglect, or new construction, must be reviewed and approved by the Newton Historical Commission. Designation of a local landmark means that the decision is filed with the Registry of Deeds.

Newton currently has 22 Local Landmarks from the last 35 years. A list of the properties and the year they were landmarked appears below:
