#279-22 Request for amendment to the Zoning Code to regulate certain signage

HER HONOR THE MAYOR requesting amendments to the City of Newton Zoning Ordinance, Chapter 30, Section 5.2 Signs regarding regulation of noncommercial signs.

Zoning & Planning Held 7-0 (Councilor Albright not voting) on 05/09/22

Action: **Zoning & Planning Approved 6-0-2 (Councilors Baker and Leary Abstaining)**

Note: Chief of Long Range Planning Zachary LeMel presented an overview of the Chapter 30 Section 5.2 amendments relative to the regulation of non-commercial signs. Mr. LeMel explained that the proposed amendments to Chapter 30 are relative to election signs and lawn signs on private property, which express opinions, views and/or beliefs. The amendments will remedy aspects of the current zoning code that do not comport with constitutional law. Mr. LeMel noted that a comprehensive sign overhaul is forthcoming. The proposed changes to the sign ordinance include; the defining non-commercial signage, and deleting existing language regarding election signage and yard/garage sales. The language regulating non-commercial signage draws from the existing language in the ordinance regarding size and location. The draft amendments prohibit commercial signage and

artificial illumination, except as permitted by Section 5.2.10. Lastly, the ordinance amendments include modifications for improved clarity and consistency.

The Public Hearing was Opened.

Peter Harrington, 157 Lowell Avenue, urged the Committee to approve the ordinance so that aligns with the United States Constitution. Mr. Harrington suggested that the Committee adopt additional language stating that the ordinance does not apply to political signs and emphasized the danger to democracy in limiting free speech. Mr. Harrington noted that free speech should be protected even when it may be inconvenient or unsightly. He asked the Council to consider the difference between non-commercial signs and political signs.

Amy Mah Sangiolo, 389 Central Street, expressed concern that the proposed changes are not being done as part of a comprehensive review and revisions to the sign ordinance. She also expressed concern relative to the sign restriction on non-commercial signage and suggested that they should be treated the same way as commercial signs. The Chair noted that a comprehensive review has been undertaken, but that that process will take time, and it is important to be in compliance with constitutional law quickly.

Martina Jackson, 115 Lowell Avenue, noted that her property was subject to enforcement action based on the City's existing ordinance. Ms. Jackson expressed concern that the zoning ordinance currently limits free speech. Ms. Jackson emphasized her support for approval of the ordinance and noted that community aesthetic should not be a consideration for the Council.

A Committee member expressed concern relative to the proposed limitation on non-commercial signs to 3'x3'. Associate City Solicitor Andrew Lee confirmed that the Law Department is comfortable with the proposed limitation, because this imposes no restriction on content. Deputy Director of Planning and Development Jennifer Caira noted again that the Planning Department has begun an internal review with the Law Department and is preparing to begin analysis of the sign ordinance in coordination with the Urban Design Commission.

Some Committee members expressed concerns about the 3'x3' size limitation, noting that it is somewhat arbitrary and questioned whether it should be considered constitutional. Committee members noted that the ordinance could be approved without a size limitation and the Council could approve a subsequent amendment relative to size in the future, if needed. Councilor Krintzman motioned to strike the language from the draft ordinance relative to the size limitation (Section 5.2.A). Some Committee members were supportive of the size limitation, noting that a proliferation of billboard-sized signs could become unsightly, regardless of content. It was noted that identifying signage as unsightly is subjective and up to each property owner's discretion. The Committee was in agreement that in no case should non-commercial signage impact public safety. Committee members reiterated concern about creating a standard that is not clear and objective.

Planning and Development Board Member Lee Breckenridge expressed support for additional analysis and case studies on the first amendment. Ms. Breckenridge noted that making a distinction for non-commercial signage created a content-based distinction.

Committee members agreed that the ordinance should include an explicit condition that any signage not create a public safety concern. Councilor Krintzman amended his motion to include the language: “No sign shall create a public safety concern” as well to eliminate of the 3’x3’ size limitation. The Committee voted 5-3 (Councilors Baker, Albright and Leary opposed). Councilor Krintzman motioned to close the public hearing, which carried unanimously. Planning and Development Board Member Kevin McCormick motioned to close the public hearing before the Planning & Development Board. The motion carried unanimously.

Councilor Krintzman motioned to approve the draft ordinance, as amended. The Committee voted 6-0-2 (Councilors Baker and Leary abstaining). Planning and Development Board members discussed the proposed ordinance amendments. The Board considered Councilor Krintzman’s amendment as approved during the Zoning & Planning Committee discussion. The Board was not prepared to vote on the amendment, which they felt may be a significant change. Ms. Molinsky motioned to approve the original amendments as propose by Planning department staff, and her motion was seconded. The Planning and Development Board voted 5-0-1 (Barney Heath abstaining). Mr. Brown motioned to adjourn which carried unanimously.

Action: **Zoning and Planning Approved 7-0 (Councilor Leary Not Voting)**
