

STUDENT/PARENT LOANS

There are a number of attractive educational loan programs available to assist you in covering your expenses over and above any financial aid that may be awarded to you from Student Financial Services. Most private lenders have credit and income requirements that must be met before being approved for these programs. Additional information regarding private loans is available on our Web site at www.financialaid.neu.edu/loans/supplemental.php. When researching the loan and lender that best meet your needs, make sure you take into consideration the interest rate, origination, disbursement, or repayment fees and the quality of customer service.

Northeastern's Monthly Payment Plan

All full-time students have the option to enroll in Northeastern's Monthly Payment Plan. This plan allows students and families to spread their annual tuition costs (less the financial aid) over nine, ten, or eleven months. Visit www.neu.edu/registrar/billing.html for additional information.
