<b>Name of Program:</b>	<b>Marine Science Center Outreach Program</b>
<b>Description:</b>	<p>The Marine Science Center Outreach Program goes far beyond “show n’ tell” science education. The Outreach Program offers multiple educational activities on location and off-site. We strive to assist teachers in using marine science as a platform to meet Massachusetts Science and Technology/Engineering Curriculum Frameworks through hands-on, research based activities. Our K-12 Outreach Program is designed to achieve three overarching goals;</p> <ol style="list-style-type: none"> <li>1. provide a practice-oriented curriculum that supports and enriches K-12 classroom science curricula using authentic marine models,</li> <li>2. provide classroom curricula that exceed the standards of learning for grade K-12 science, and</li> <li>3. provide fun, content-rich lessons and activities that significantly expand students’ scientific literacy</li> </ol> <p>Our program is committed to helping teachers and their students acquire a better understanding and appreciation of the coastal marine environment in Massachusetts and beyond. It is important to note that any program can be specially designed for your classroom. Programs can be modified or combined to fit your needs. Please inform us of all requests prior to your visit so we can plan accordingly.</p>
<b>Grades Served:</b>	9 <sup>th</sup> and 10 <sup>th</sup> grade
<b>Dates:</b>	2weeks in August to be determined

<b>Name of Program:</b>	<b>Husky Summer Baseball Camp</b>
<b>Description:</b>	The Husky Summer Baseball Camp has enjoyed a wonderful reputation as a "FUN" baseball experience for LL age kids, most of whom return every year from Brookline, Newton and the surrounding communities. Applications, both online and hard copy will be available just after New Year's. There will also be an e-mail announcement of all the details as well. If the NU coaches do not have your son/daughter's address, please e-mail Neil McPhee at n.mcphee@neu.edu and he will put them on his mailing list.
<b>Grades Served:</b>	6 to 12 year olds (co-ed)
<b>Dates:</b>	Week 1: July 6-10, 2009 Week 2: July 13-17, 2009
<b>Cost:</b>	1 week: \$375 2 weeks: \$700 Extended Day: \$40/day
<b>Contact Name/Number:</b>	Neil McPhee, 617-373-3657
<b>Email:</b>	n.mcphee@neu.edu
<b>Website:</b>	Gonu.com/camps/baseball.htm

<b>Name of Program:</b>	<b>Husky Babe Ruth Age Camp</b>
<b>Description:</b>	<p>Head coach Neil McPhee along with assistant coach Pat Mason and first year Northeastern assistant coach Mike Glavine will operate the Husky Babe Ruth baseball camp at Parsons Field/Friedman Diamond from July 20-23. The camp is for athletes ages 13-16.</p> <p>This is the third year of the camp and is a progression from the very successful Husky little league age camps. Both Mason and Glavine were superb players at Northeastern in the 1990s and played on championship teams during that time. Mason was the catcher and captain of the 1996 and 1997 teams and played in the NCAA Tournament in 1994 and 1997. Glavine played first base and captained the 1995 team and also played on the 1994 NCAA Tournament team. Glavine, who is the brother of 10-time All-Star Tom Glavine of the New York Mets, was recently inducted into the Northeastern University Hall of Fame.</p> <p>As with Northeastern's other camps and clinics, this clinic will be organized and structured to provide superb instruction in all the fundamentals of the game of baseball. We are committed to helping players develop into the best they can be at each level – youth, high school and college. At the same time, players will receive a four-day experience of college-level coaching and instruction at the Div. I level, as well as advice on the college search process they will be preparing in their future.</p>
<b>Grades Served:</b>	13-16 year olds
<b>Dates:</b>	July 20-23, 2009
<b>Cost:</b>	\$200

<b>Name of Program:</b>	<b>Elite Field Hockey Camp</b>
<b>Description:</b>	These camps are for field players and goalkeepers, ages 12-18, of all ability levels. The players will learn and review the basic skills required to play the game. Skills and tactics are reinforced through fun competitions, small game play and tournaments. The Camp program provides a challenging, fun atmosphere for players to prepare for their fall season. Players will be able to choose to participate in special lectures and activities of interest to them. At the end of the camp, a full field tournament will be held in which campers play with their high school teams. <i>Goalkeepers will be limited to 12 per week.</i>
<b>Grades Served:</b>	12-18 year olds
<b>Dates:</b>	July 12th-15 <sup>th</sup> July 19th-22 <sup>nd</sup> July 26th-29 <sup>th</sup>

<b>Name of Program:</b>	<b>BAC Summer Academy 2009</b>
<b>Description:</b>	<p>All students in the BAC Summer Academy receive an introduction to architecture, interior design, landscape architecture, and media and computing.</p> <p>Throughout the program, the emphasis is on practical, hands-on learning. From drawing, to computer-aided design, Summer Academy students study the basics and begin to understand the importance of teamwork in the profession as they collaborate on the design and production of a group project.</p> <p>All students participating in the program take part in educational field trips to local design firms and benefit from guest speakers that are practicing professionals. As the program progresses, students continue to produce work that can be used for portfolios when applying to college programs. During the last week of the program, students have the opportunity to present their work to family members and friends.</p>

<b>Name of Program:</b>	<b>Camp Greylock</b>
<b>Description:</b>	<b>Camp Greylock</b> is divided into 3 smaller residential groups, which are further separated into divisions. Greylock is a community made up of individuals, and our structure of intimate groups enables us to be sensitive to each individual. We have approximately one counselor for every three campers. We are committed to knowing, understanding, and giving personal attention to each camper. We know their names, their personalities, their needs and their goals. We will go the extra mile to help them succeed. We want campers to recognize that learning is a lifelong process. We help young men look inside for their talents, and outside to find the integrity in all things. Through example and guidance, campers learn the value of sportsmanship, effort and consideration for others.
<b>Grades Served:</b>	6-16 year olds

<b>Name of Program:</b>	<b>Hampshire College Summer Studies in Mathematics</b>
<b>Description:</b>	Hampshire College Summer Studies in Mathematics is a rigorous math program that is both demanding and expanding. Participants are expected to spend a major portion of each day actively engaged in learning, doing, and sharing mathematics. The daily schedule includes 4 hours of class meetings each morning, Monday-Saturday, the Prime Time Theorem in the afternoon, and problem sessions in the evening. Afternoons are devoted to rest, recreation and informal study. Participants have unparalleled access to faculty members in both formal and informal settings, and many form lifelong friendships and collaborations with fellow students and faculty.
<b>Grades Served:</b>	Grades 9-12
<b>Dates:</b>	June 28-August 8, 2009
<b>Deadline to Apply:</b>	Preferred date May 15, 2009
<b>Cost:</b>	\$2380, financial aid available

<b>Name of Program:</b>	<b>iD Tech Summer Camps (various locations)</b>
<b>Description:</b>	<p>iD Tech Camps offers summer computer camps for kids and teens (ages 7-17) at 60 universities in the United States and Canada. We also offer additional teen academies (ages 13-18) including the iD Gaming Academy, iD Film Academy, and the new iD Programming Academy.</p> <p>Our MA summer camps in Northampton, North Andover and Boston allow students to experience real life at a prestigious university—day campers study in computer labs, eat in university dining halls and may take campus tours. Boarding campers live in college dorms. Our academic summer camps have an average of 6 students per instructor and customized curriculum for beginner to advanced learners. iD's unique computer camps offer courses that vary from creating video games and producing digital movies to designing web pages and learning programming and robotics.</p>
<b>Grades Served:</b>	7-17 year olds
<b>Dates:</b>	June22-August 7
<b>Cost:</b>	Between \$779 and \$1199 depending on day or overnight registration

<b>Name of Program:</b>	<b>InnoWorks</b>
<b>Description:</b>	<p>Students who participate in InnoWorks explore real-world links between science and engineering through group activities that build teamwork, leadership and communication skills. Our curricula are designed based on cutting-edge neuroscience and education research and are constantly updated and revised. Some examples of curricula include “Making Sense of Senses”, “Explorations” and “The Eureka Effect”. Each theme integrates various group activities and demonstrations to deliver a sound educational experience.</p> <p>InnoWorks is unique among science programs in that it is run entirely by passionate college volunteers and is offered free of cost to all selected students. InnoWorks has spread to ten college campuses worldwide and has allowed hundreds of middle-school students to experience science in a new and exciting ways.</p>
<b>Grades Served:</b>	Middle school students ages 11 to 14
<b>Dates:</b>	Schedule not yet determined 6 days between August 8 and August 29, 2009
<b>Deadline to Apply:</b>	Students must be nominated by their school. Please contact the program for application materials.

<b>Name of Program:</b>	<b>MGH Transitions: Career Skill Development for Teens</b>
<b>Description:</b>	<p>Transitions: Career Skill Development was developed to meet the needs of adolescents with social cognition challenges, including Asperger's Syndrome, High Functioning Autism, and Nonverbal Learning Disorders. Based on the premise that teens learn best through "real-life" experiences, the program offers career and post-secondary education exploration opportunities in the community with staff support. Integrated throughout the curriculum is social skill and self-awareness education.</p> <p>Transitions: Career Skill Development is designed for adolescents aged 15-19 in Summer 2009. Typically, our participants have diagnoses including Asperger's Syndrome, High Functioning Autism, or Nonverbal Learning Disorder, and have had success being supported through direct instruction. Additionally, teen participants should be interested in developing their career skills through an internship experience.</p>
<b>Grades Served:</b>	15-19 year olds
<b>Dates:</b>	June 24 - August 12, 2009
<b>Deadline to Apply:</b>	Rolling admissions, space is limited
<b>Cost:</b>	\$5500 for entire summer

<b>Name of Program:</b>	<b>MGH Transitions: Summer Explorations for Teens</b>
<b>Description:</b>	<p>In 2008, YouthCare began a new skill-development program for adolescents: Transitions. In 2009, YouthCare will expand Transitions to include a summer program for youth aged 13-16 to develop and practice daily living skills in a structured, supportive environment. The program includes weekly teen-planned field trips, and team-building activities as well as the planning and completion a group community service project. Self-awareness and Social Skill education is integrated throughout the program curriculum. Activities take place in small groups with a high staff-to-youth ratio to provide teens with individualized social coaching.</p> <p>Transitions: Summer Explorations is a seven-week therapeutic skill-focused summer program for teens, providing structured and unstructured activities, daily living skill instruction, field trip experiences, team building activities and therapeutic groups.</p> <p>Typically, our participants have diagnoses including Asperger's Syndrome, High Functioning Autism, or Nonverbal Learning Disorder, and have had success being supported through direct instruction. Additionally, teen participants should be interested in learning new skills and motivated to become more independent.</p>

<b>Name of Program:</b>	<b>MGH YouthCare</b>
<b>Description:</b>	YouthCare, a program of the Massachusetts General Hospital, serves children and adolescents with social cognitive deficits such as Asperger's syndrome, non-verbal learning disabilities and high functioning autism. We provide the opportunity for children to develop the social skills necessary to succeed at home, in school and in their community. Founded in 1969, YouthCare offers a fun-filled seven-week therapeutic day camp for children entering 1st grade through age 14. Each camp day consists of recreational activities as well as therapeutic interventions. Camp is structured to support the development of children's social communication skills, group skills, and executive function skills while having a fun summer camp experience. All activities take place in small groups with a high staff to child ratio in order to provide children with individualized social coaching. We have two camp sites: Charlestown and Westwood, MA.

<b>Name of Program:</b>	<b>MIT Science of Baseball Program</b>
<b>Description:</b>	<p>The MIT Science of Baseball Program (MSBP), a four-week summer program, is aimed at improving the mathematics and science skills of entering eighth grade boys who attend Boston and Cambridge public schools by building on their interest in baseball to learn physics and math. This summer, MSBP will provide opportunities for 30-40 boys, who demonstrate a passion for baseball and an interest in academic improvement.</p> <p>The program will feature an integrated, experiential curriculum, including both academic and athletic components that exploit the natural connections between student experiences and academic topics. Participating students will learn to master a number of statistical operations that will be used throughout. They will collect numerical data at every opportunity and use it to describe their experiences.</p>
<b>Grades Served:</b>	Rising 8 <sup>th</sup> grade boys
<b>Dates:</b>	June 29-July 24, 2009
<b>Deadline to Apply:</b>	March 27, 2009
<b>Cost:</b>	Free

<b>Name of Program:</b>	<b>Program in Mathematics for Young Scientists (PROMYS)</b>
<b>Description:</b>	<p><b>PROMYS</b> offers a lively mathematical environment in which ambitious high school students explore the creative world of mathematics. Through their intensive efforts to solve a large assortment of unusually challenging problems in Number Theory, the participants practice the art of mathematical discovery -- numerical exploration, formulation and critique of conjectures, and techniques of proof and generalization.</p> <p>More experienced participants may also study abstract algebra, geometry and symmetry, and analysis in arithmetic. Problem sets are accompanied by daily lectures given by research mathematicians. In addition, a highly competent staff of 18 college-aged counselors live in the dormitories and are always available to discuss mathematics with students. Each participant will meet with professional mathematicians several times per week for problem-solving and open-ended explorations. Special lectures by outside speakers offer a broad view of mathematics and its role in the sciences.</p>
<b>Grades Served:</b>	9 <sup>th</sup> – 12 <sup>th</sup> graders that are 14yrs. of age or older
<b>Dates:</b>	<b>Boston University, June 28 to August 7, 2009</b>
<b>Deadline to Apply:</b>	Applications will be available in January and will be accepted from February 1 until May 30, 2009.
<b>Cost:</b>	The cost for instruction and room and board in 2009 is \$2,500. Books may cost an additional \$100. Financial aid is available. <b>PROMYS</b> is dedicated to the principle that no student will be unable to attend because of financial need.

<b>Name of Program:</b>	<b>REACH – Summer Outreach Dance Program</b>
<b>Description:</b>	<p>REACH is a summer dance program that combines innovative choreography and professional dance instruction to create a unique performance and service opportunity. Students chosen to be members of the REACH dance company will be exposed to a variety of dance styles from around the world — from modern to hip-hop, to ballet and traditional Haitian and Chinese dance, to krump.</p> <p>With the help of REACH’s professional instructors and college interns, students will create a 45-minute dance performance. Students will perform all over the City and get a chance to share their talents with kids who need dance in their lives too. There will even be master classes, an evening performance for the public, and an informational session on preparing for college admission.</p>
<b>Grades Served:</b>	Students entering 8 <sup>th</sup> , through 12 <sup>th</sup> grade
<b>Dates:</b>	June 29 to July 10, 9:00 a.m. to 2:00 p.m. July 12 to July 24, 8:00 a.m. to 2:00 p.m.

<b>Name of Program:</b>	<b>Research Internship in Science and Engineering</b>
<b>Description:</b>	The Research Internship in Science & Engineering provides academically motivated rising high school seniors with the opportunity to conduct university-level research. This six-week honors program provides full immersion in the laboratory environment. Under the guidance of a Boston University research mentor, students work on an ongoing research project in a discipline of their interest, gaining valuable technical and analytical skills, as well as insight into the scientific process. Students can pursue research in the following subject areas: astronomy, biology, chemistry, engineering, medicine, physics, or psychology. Research Interns enjoy a stimulating intellectual and social camaraderie with their peers, culminating in a scientific conference at the end of the program. Each student presents his or her research by creating a poster. In many cases, Research Interns submit their work to national science fair contests such as the Siemens Westinghouse Competition and the Intel Science Talent Search.

<b>Name of Program:</b>	<b>St. Columbkille Summer Program</b>
<b>Description:</b>	<p>Program mission: The St. Columbkille Summer Program is committed to connecting and integrating each student's academic and social/emotional development from one school year to the next.</p> <p>The St. Columbkille Summer Program focuses on encouraging, enhancing, and expanding students' skills during the summer months to further the student's development and academic achievement. As a full-day summer enrichment program, a new theme is introduced at the start of each session, guiding the curriculum and focus of learning for the week. Students engage in classroom learning, participate in hands-on activities, and participate in afternoon recreation and enrichment activities. The program operates on the Boston College campus giving students access to the campus pool several times per session as well as other campus resources (e.g. Educational Resource Center, Boston College Police Department, McMullen Museum of Art). Each session operates around a weekly theme and field trips and/or special events on Fridays help to culminate the week through visits to local cultural institutions such as the Museum of Science, the Children's Museum, the New England Aquarium, and the Franklin Park Zoo.</p>
<b>Grades Served:</b>	PreK-7th

<b>Name of Program:</b>	<b>Summer Pathways</b>
<b>Description:</b>	<p>Summer Pathways is an immersive, one-week, residential program for female high school students who are interested in pursuing careers in science or engineering. The program is free to students from Boston and Cambridge schools that do not have the financial resources to participate in a summer enrichment program. The program's goals are to expose students to the wide range of opportunities in science and engineering, to excite them about these opportunities, and to connect them to women working in these fields. These women will serve as role models and mentors as will undergraduate students, graduate students, postdoctoral fellows, faculty, and members of industry from across disciplines. Students will visit laboratories, engage in science exploration activities, listen to career panels, visit local companies, learn about the college admissions process, and go on science-related field trips to various local destinations (the Museum of Science, NEAQ, Plastics Museum, etc.).</p>
<b>Grades Served:</b>	Female students entering grades 11 and 12
<b>Dates:</b>	July 10 to 17, 2009
<b>Deadline to Apply:</b>	May 1, 2009 — See web site for application information

<b>Name of Program:</b>	<b>Summer Science and Engineering Program</b>
<b>Description:</b>	<b>The Smith Summer Science and Engineering Program (SSEP)</b> is a four-week residential program for exceptional young women with strong interests in science, engineering and medicine. Each July, select high school students from across the country and abroad come to Smith College to do hands-on research with Smith faculty in the life and physical sciences and in engineering. Girls who will be in high school (grades 9-12) in fall 2009 are eligible to apply for the summer 2009 program. Located in Northampton, MA.
<b>Grades Served:</b>	Grades 9-12
<b>Dates:</b>	June 28-July 25, 2009
<b>Deadline to Apply:</b>	Early admission – March 1, 2009/Regular admission – May 1, 2009
<b>Cost:</b>	\$4500 for summer, financial aid available
<b>Contact Name/Number:</b>	Gail E. Scordilis, Ph.D., Director, (413) 585-3060

<b>Name of Program:</b>	<b>Taking Healthy Steps</b>
<b>Description:</b>	<p>Taking Healthy Steps is one week of intensive dance instruction, theatre arts and special workshops during which girls, ages 11 – 14 explore a range of performing arts including Ballet, Modern Dance, Musical Theatre and Theatre Arts daily with special guests leading classes in strength training, flexibility, nutrition, gyrokinesis and yoga.</p> <p>Taking Healthy Steps provides a supportive environment where students are encouraged to express themselves freely and forge new friendships with girls from all over Boston. By gaining greater physical awareness through movement and discovering different ways to share their own voices, Taking Healthy Steps participants develop healthy self-image, leadership skills, and confidence that remain long after the end of the program.</p>
<b>Grades Served:</b>	girls ages 11 – 14
<b>Cost:</b>	There is no cost for this program after the \$25 registration fee.
<b>Contact Name/Number:</b>	Brynn Hale at 617-456-6359.

<b>Name of Program:</b>	<b>U-Design</b>
<b>Description:</b>	<p>U-Design is an exciting science and engineering program that provides hands-on laboratory and workshop experiences that give students the opportunity to learn about science and technology. By engaging in the real work of scientists and engineers, students get to design, explore, experiment and invent. Here students get to think of their own ideas and build their own “way cool” inventions. Workshops include materials for students to take home.</p> <p>Each session runs from 8:30 a.m. to 4:00 p.m. Monday through Thursday, and from 8:30 a.m. to 5:30 p.m. on Friday.</p>
<b>Grades Served:</b>	Students entering 7 <sup>th</sup> , 8 <sup>th</sup> , 9 <sup>th</sup> , and 10 <sup>th</sup> grades
<b>Dates:</b>	<p>Session I — July 13 to 17, 2009</p> <p>Session II — July 20 to 24 2009</p>
<b>Deadline to Apply:</b>	May 29, 2009
<b>Cost:</b>	\$385 — Scholarships available
