

Public Health Alert- H1N1 Flu Information

Updated 5:00pm 5/4/09

The H1N1 Flu, also known as swine flu, continues to be an evolving situation. The image on main page links you to the CDC website for the most up-to-date information. UHCS continues to work closely with the Massachusetts Department of Public Health and Boston Public Health Commission and has implemented guidelines for testing, treatment and prevention.

We have added some flyers on Healthy Habits from the CDC to the side bar on main page that departments can print and use throughout their offices.
