Northeastern

Predicted Grades Request Form

Applicants who will graduate from a high school outside of the United States are encouraged to submit results from any regional or national examinations which represent completion of secondary education and proof of high school graduation. If your final results from any secondary school or university entrance examinations are only released after our application deadline, predicted results can be submitted officially by your high school to Northeastern University.

TO THE SCHOOL OFFICIAL: Predicted grades can be submitted by completing Northeastern's form or using your own school form, and uploading with the School Report, high school transcript, or Counselor Recommendation in the Common Application or Coalition Application, or by sending from an official school email address to admissions@northeastern.edu.
