Creating Polls

1. Create new poll - Click on the plus sign or create new poll button to start creating polls.
2. Select activity - Chose the activity you would like your students to complete: Multiple choice, word cloud, Q&A, Rank order, clickable image, survey, and open-ended.
3. Write the prompt - Write the question or prompt for the activity.
4. Write answer options - Depending on the prompt/question type, you will provide answer options. In the answer option boxes, you can include text, images, and equations using LaTeX. If there is a correct answer, you can mark this using the check mark.
5. Add answer options - Click the plus sign to add more answer options.
6. Assign to group/folder - To help organize, you can add the activities to the poll group, which acts like folders in Poll Everywhere.
7. Create or add activity - If you are done creating activities click Create. If you would like to create more activities click Add another activity.
