Companies are seeking individuals with strong capabilities in analytics, information technology, biotechnology, cybersecurity, regulatory affairs, and project management. To address this need, Northeastern University is pleased to announce new scholarships to help prepare students for these high-growth industries aligned with our regional campuses.

PROGRAMS ELIGIBLE

Master of Science in Biotechnology*
Master of Science in Bioinformatics*

*Offered in San Francisco

Master of Science Regulatory Affairs for Drugs, Biologics and Medical Devices**

**Offered in Silicon Valley

Student Eligibility

Scholarships of up to 25% off total program cost are available to new students who enroll and start in an eligible program in 2019. Program admissions based on eligibility and scholarship will be applied to the student account during each term of enrollment. Multiple start dates are available by program. Northeastern alumni are not eligible for these specific scholarships, but are encouraged to apply for the Double Husky Scholarship as appropriate.

How to Apply

In 250 words or less, describe a challenge you are facing and how a Northeastern University degree will help you overcome this to become positioned for success. Submit essay to the program’s respective faculty member via email as listed by campus below. Applications are reviewed upon receipt and funding is limited, so students are encouraged to apply at least two weeks prior to desired start term. For program contact information, see below. Eligibility for scholarships are limited to U.S. residents only.
