

Promoting Learning Through Technology and Team Work

GOAL: Introduce faculty to the concept of student engagement through utilization of various technical tools in an online format and the concept of team work in classrooms to promote learning

In Class Discussions

- Facilitate Team Discussions in small groups
- Students working in groups will engage the student into learning more about the topic.
- Require Team projects to promote confidence in presentations.

Online Formats

- Use Kaltura software to post weekly lectures
 - Web Cam enabled
 - Allows instructors to record lectures
 - Captures all functionality on the computer.
- Blackboard Collaborative can be used to offer live chat sessions with the students.
- Be a participant in the weekly discussion boards
