INTRODUCTION

The faculty and staff welcome you to the graduate programs in the Department of Political Science. Your acceptance into graduate study signifies a high level of achievement in your previous academic efforts and demonstrates your commitment to intellectual and professional development. We hope your experience at Northeastern is both productive and rewarding.

Please do not hesitate to call upon any of the faculty or staff for further assistance. You are especially encouraged to consult with your academic advisor on a regular basis.

This publication is a companion piece to the two official University graduate publications listed below. These publications should be consulted regularly for information on pertinent college-wide rules, regulations, and graduate opportunities. These publications and more are available online at northeastern.edu/cssh/graduate/current_students

- **The CSSH Graduate Student Academic Services General Regulations Book** covers rules and regulations that apply to all graduate programs in the College of Social Sciences and Humanities. The most recent General Regulations can be viewed online at http://www.northeastern.edu/cssh/polisci/graduate/current-student-resources/

- **The CSSH Graduate Student Academic Services Course Description Website** lists courses and their descriptions. This is available online at http://www.neu.edu/registrar/cdr.html.
DEPARTMENT AND UNIVERSITY CONTACTS

Department Contacts

In addition to your academic advisor, the following are several core faculty and staff who help administer our graduate programs. Please see the Faculty and Staff Directory on page 35 of this guide or www.polisci.neu.edu for a full listing of our faculty and staff.

Professor John Portz
Interim Chair of Department of Political Science
617-373-3391 or j.portz@neu.edu

Professor Denis Sullivan
Graduate Coordinator & PhD/MA Program Chair
617-373-4409 or d.sullivan@neu.edu

Logan Wangsgard
Graduate Administrative Coordinator
617.373.4404 or l.wangsgard@neu.edu

Additional Northeastern Resources

The following is contact information for other Northeastern offices you may need to get in touch with as you transition to being a graduate student. For a full listing of Northeastern Offices please see http://www.northeastern.edu.

PHD IN POLITICAL SCIENCE

The Doctor of Philosophy in Political Science is grounded in the core fields of the discipline - American government and politics, comparative politics, international relations, and public policy. Students identify a primary and secondary field as areas of emphasis. The curriculum introduces students to all four fields and also develops their research skills through a series of methods courses. Students may develop a traditional, academic focus in one of the fields, or they may combine it with public policy to highlight a policy orientation. The program prepares students to be academic scholars and teachers as well as practitioners in research and public service.

DEGREE REQUIREMENTS

The PhD degree requires completion of required courses, passing a written and oral comprehensive examination, and the successful defense of the dissertation before a faculty committee.

Students who are entering the program with a bachelor's degree complete 48 semester hours (sixteen courses) of academic credit. Students who enter the program with a Masters degree from another university are required to complete a minimum of 30 semester hours of credit at Northeastern. The program chair will assess the academic record of each applicant entering with a Masters degree and, in some cases, will mandate that the student take more than 30 semester hours in order to fully prepare the student for comprehensive examinations and the dissertation.

Students who earned a Master of Arts or Master of Public Administration degree from the Department of Political Science at Northeastern University must complete additional coursework to satisfy the overall course requirements of the PhD program (dependent on the relevant courses taken and their field of study). Students also must satisfy course distribution requirements outlined below unless specific courses have been waived based on past graduate level coursework.

Satisfactory progress in the PhD program is defined as maintaining an overall grade point average of 3.500 and maintaining sufficient progress toward completion of one’s dissertation during candidacy. Please see page 25 in this guide for the full academic progress policy for our graduate programs.

CURRICULUM

The following is an outline of all core, elective, and field requirements for the PhD in Political Science. You will also find at the end of this guide a useful “PhD Course Requirements Tracking Sheet” to help you in monitoring your progress toward candidacy.

Core Requirements: All doctoral students, regardless of their primary field concentration, must complete the following eight required core courses:
Elective and Field Requirements: All doctoral students must also complete eight elective courses. At least four of these courses should be in the student’s primary field and at least two courses should be in a secondary field. The only field that has a specific required course is the policy field, which stipulates that all students choosing this as a primary field must complete PPUA 6506, Techniques of Policy Analysis.

Elective courses may also include courses outside the department, directed studies, or internships. With permission, courses directly relevant to the student's area of study may be taken in other graduate programs within Northeastern University. Under normal circumstances, no more than six semester hours (two courses) may be taken outside the department. In addition, up to two courses may be taken as “directed study” in particularly specialized areas. Students may also find completing an internship is relevant toward completion of their degree. The internship program is outlined later in this guide under the Academic Resources and Support section.

Language proficiency: Students must demonstrate language proficiency as necessary for successful completion of the dissertation. Language courses do not count as electives and those taken at Northeastern University must be approved by the department, CSSH Graduate Student Academic Services, and Northeastern’s World Languages Center.

DOCTORAL DEGREE CANDIDACY

Doctoral degree candidacy is attained after successful completion of all coursework and the written and oral components of the comprehensive examination.

Comprehensive Examination: Following completion of required course work, doctoral students must pass a comprehensive examination consisting of a written and oral component. During the semester they take the comprehensive exams, students will register for POLS 8960, Doctoral Exam Preparation. Registration for this one course constitutes full-time status. Written examinations are based on the literature in the field as well as materials derived from completed coursework. An oral examination is administered after completion of the written examination.
Comprehensive examinations are offered in the fall and spring semesters as agreed on by the candidate, the PhD chair, and the comprehensive examination committee. The examination format includes questions covering the primary and secondary fields as well as research methods.

**Yearly Progress Reports:** At the end of each academic year, doctoral candidates and their dissertation advisors will be asked for information regarding their progress.

**Dissertation**

A dissertation is required of all students. A student has five years to complete the dissertation once doctoral degree candidacy is attained. Once degree candidacy is attained, registration must be continuous until graduation requirements have been met.

For each of the first two semesters that a doctoral candidate is working on a dissertation the student must register for POLS 9990: Doctoral Dissertation. For each semester beyond the two Dissertation registrations, the student must register for POLS 9996: Doctoral Dissertation Continuation until the dissertation is approved by The CSSH Graduate Student Academic Services and is submitted electronically to the University Library. Students should not register for continuation during the summer unless that is when the defense is scheduled to take place.

Doctoral dissertation requirements are fulfilled in several stages:

**Forming the Dissertation Committee:** The dissertation committee is put together by the PhD candidate and academic advisor (who usually acts as the primary reader), based on consultation with and the approval of the Chair of the PhD program. The committee is typically composed of three members and normally may include up to one faculty member from outside the department or the university, but must be chaired by a full-time, tenured member of the Department of Political Science. The committee approves the dissertation proposal and works with the student throughout the dissertation process, including the oral defense.

**The Proposal:** Within six months after obtaining doctoral candidacy, the PhD candidate must have a written proposal specifying the topic, approach, and research design, and describing the resources available for completing the research, approved by the primary and secondary readers. The department offers a series of dissertation proposal, research and professional development workshops to assist recent candidates in preparing their proposals. However, these workshops do not replace the need for a close working relationship with the dissertation advisor. The proposal should demonstrate the student’s comprehension of the literature in the areas of research and should present a reasonably detailed plan for conducting research. Once approved by the first and second readers, all proposals must be reviewed and approved by the Chair of the PhD program.

**Formats:** There are two possible formats for a dissertation. One is the more traditional book-length manuscript. The other is composed of several journal-quality chapters and an integrative essay. Consult
the Chair of the PhD program for more information on these options. The dissertation must meet all requirements of The CSSH Graduate Student Academic Services.

**Research and Writing:** The student thereafter writes a dissertation that presents an original approach or insight into the topic under investigation. It is based on research utilizing primary documents as well as secondary literature, and reflects the methodological approach established at the proposal stage. The student is advised to maintain constant contact with the chair of the dissertation committee throughout the process.

**Defending the Dissertation:** At a time when the dissertation committee so deems, the student will orally defend the dissertation before the committee and any other member of the University community who wishes to observe.

**Submission:** Once the dissertation has been successfully defended and is deemed complete by the committee, the student must submit the completed manuscript to the University, following the precise guidelines ([http://www.northeastern.edu/cssh/wp-content/uploads/2015/07/CSSH-Thesis-Preparation-Guide-7.15.pdf](http://www.northeastern.edu/cssh/wp-content/uploads/2015/07/CSSH-Thesis-Preparation-Guide-7.15.pdf)) for submission provided by the College. No degree can be granted until the University has formally accepted the dissertation.

**PROGRAM STRUCTURE AND ADMINISTRATION**

The PhD Committee is the chief policy-making body for the doctoral program. Decisions regarding curriculum and program direction and development are within the jurisdiction of this committee. Three members of the PhD Committee serve as the admissions committee for the doctoral program.
MASTER OF ARTS IN POLITICAL SCIENCE

The Master of Arts Program focuses on the core scholarly areas of political science. Students specialize in one of five concentration areas: American government and politics, comparative government and politics, international relations, public policy, and security studies. Courses in the MA program serve as a foundation for work in a doctoral program or as preparation for careers in government, nonprofit organizations, or related work in the private sector.

DEGREE REQUIREMENTS

To earn the Master of Arts (MA) in Political Science degree at Northeastern, you must successfully complete 30 semester hours (typically 10 courses) of credit. Full-time students can expect to complete the degree within two academic years. Coursework is divided between 3 credits in a course required of all MA students, 12 credits within a chosen concentration, 3 credits outside the student’s area of concentration, and a remaining 12 elective credits. These requirements are described in more detail below. Additionally, full course listings can be found under the section Graduate Courses in the Department of Political Science located later in this guide.

Satisfactory progress in the MA Program includes maintaining a grade point average of 3.000. Students must attain a final cumulative grade point average of at least 3.000 in all course work to qualify for the Master of Arts degree. In addition, MA degree candidates must also obtain a grade point average greater than 3.000 in their concentration area, and any course in which a student earns lower than a C grade cannot be used to fulfill concentration area requirements. Please see page 27 in this guide for the full academic progress policy for our graduate programs.

In addition to in-class coursework, students are encouraged to complete an experiential education component that advances their learning, research and/or career objectives. Experiential education offers MA students a direct experience with focused reflection, relevant to their academic studies. For students with research interests, the experience focuses on related activities, such as primary source analysis and data-gathering. For other students, the experience involves engagement with areas of practice and policy, like an internship. An experiential education opportunity will be satisfied with a minimum of 3 credits and a maximum of 9 credits.
**CURRICULUM**

The following is an outline of all curriculum requirements for the MA in Political Science. You will also find at the end of this guide a useful **MA Course Requirements Tracking Sheet** to help you in monitoring your progress toward graduation.

**POLS 7202 Quantitative Techniques:** All MA students are required to take POLS 7202-Quantitative Techniques. We recommend students take this required course as early in the program as possible.

**Concentration Requirements**

As stated above, all MA students are required to select one of five concentrations. Each concentration requires at least four courses. The following is an overview of each concentration and a brief description of its requirements.

**American Government and Politics:** The field of American government and politics studies the structure of the American system of governance, its institutions, processes for representation, and the broad dynamics of public policymaking. Students in this field will develop a thorough knowledge of the formal institutions of government, as well as an appreciation for the historical and philosophical foundations of the constitutional system, the societal factors that have shaped policymaking, and for the normative dimensions of democratic representation and effective government. The following course is required of all students pursuing this concentration:

- **POLS 7205- Seminar in American Government and Politics:** Focuses on major research approaches and corresponding academic literature in U.S. politics. Examines the scholarly analysis of key actors in U.S. politics, including the presidency, Congress, the judiciary, and political parties.

Additionally three other courses whose primary focus is American government must be chosen from the Department’s offerings.

**Comparative Politics:** Comparative politics focuses upon politics within and across nations. It examines and compares political structures and institutions, political culture development and democratization, as well as many of the challenging issues facing states today. MA students develop a solid understanding of how different kinds of political systems function and how to assess their impact on public policy and normative questions. They study the impact of culture and international politics upon political processes within nations; and they study the theory and methods for comparing nations. Students have the opportunity to focus on specific areas of the world as well as to develop a broad understanding of all types of political systems.
The following course is required of all students pursuing this concentration:

- **POLS 7206- Seminar in Comparative Politics**: Focuses on major research paradigms within comparative politics, including political culture, structuralism, and rational choice. Examines major research fields in the discipline, including democratization, nationalism, ethnic politics, political economy, and political parties.

Additionally three other courses whose primary focus is comparative politics must be chosen from the Department’s offerings.

**International Relations**: The field of international relations is concerned both with relations that occur across national boundaries and with the patterns or structures according to which such relations take place. More specifically, international relations examines the actors, issues, and actions which have impacts beyond national boundaries. As an academic discipline, the field attempts to define these phenomena, explain the historical and present patterns of their occurrence, and illuminate the contexts in which certain patterns are likely to be experienced. As such, international relations looks not just to the actors and the systems within which their interactions take place, but it also attempts to ascertain how the particular systems evolved, why particular actors at one time or another have somehow dominated international affairs, and how in their interactions various actors have contributed to shaping issues and patterns in international affairs.

The following course is required of all students pursuing this concentration:

- **POLS 7207- Seminar in International Relations**: Focuses on major research approaches and corresponding academic literature in international relations. Examines major fields of study, including international security, international regimes, international organizations, globalization, and international political economy.

Additionally three other courses whose primary focus is international relations must be chosen from the Department’s offerings.

**Public Policy**: The field of public policy focuses on the various strategies and actions that governments adopt to achieve broadly accepted goals. The public policy process often is conceptualized as a cycle of activities that include problem definition, agenda setting, enactment, implementation, and evaluation. Advanced study of public policy draws on perspectives and methods that are rooted in not only political science, but also law, history, economics, and other disciplines to allow for a comprehensive understanding of policy development as well as outcomes. Based equally on social scientific tools and an appreciation of politics, it equips the policy analyst with the ability to provide advice to public officials and advocates so that informed decisions can be made about public policy alternatives. While the focus of this field is on policymaking in the United States, a cross-national and international perspective is also included. Courses in this field cover the policymaking process, policy analysis, and substantive policy areas.
The following course is required of all students pursuing this concentration:

- **POLS 7204 - Seminar in Public Policy**: Concentrates on the scope of the study of public policy, disciplinary contributions to policy analysis and the study of public policy, methods of policy analysis, and models of policy processes.

Additionally three other courses whose primary focus is public policy must be chosen from the Department’s offerings.

**Security Studies**: The field of security studies addresses the causes of war and peace within a nation state or the international system. Security studies is closely tied to the study of government, since security is a key public good that governments seek to provide for their citizens. Security failures are often the result of government failures to maintain a stable domestic environment or to address international challenges. International organizations also play an important role in establishing security, through conflict resolution, arms control, and deployment of various resources. Students at Northeastern further benefit from an innovative perspective on security that forms the basis of the new MS in Security and Resilience Studies at Northeastern. This program seeks to strengthen societal and infrastructure resilience to natural and manmade disasters.

The following courses are required of all students pursuing this concentration:

- **POLS 7207 - Seminar in International Relations**
- **POLS 7341 - Security and Resilience Policy**

Additionally two other approved courses (from a specialized list) must be chosen from the Department’s offerings.

**Non- Concentration Requirement**

In order to broaden the overall perspective of every student to all the fields of the discipline, we require every student to take at least one course outside their area of concentration. Those students pursuing a concentration in comparative politics or international relations are required to take at least one course in American government, or public policy. Those students pursuing a concentration in American government and politics or public policy, are required to take at least one course in comparative politics, or international relations. Those students pursuing a concentration in Security Studies, are required to take at least one course in American government and politics.
Elective Options

Beyond the requirements listed above, MA students are required to complete an additional 12 credits as electives. These can be done as course work through any of the above mentioned concentration areas or within a number of other options pursued under advisement with the Department.

Research Courses: Though not required, we strongly recommend that students interested in pursuing doctoral studies, whether at Northeastern or elsewhere, take the following doctoral program core courses, POLS 7200- Perspectives on Social Science Inquiry and POLS 7201- Methods of Analysis. In addition to these two courses are other research methodology courses both within the department as well as other departments in the college to help prepare students for doctoral level work.

Courses in other programs: With prior permission from both departments, MA students may take up to six semester hours relevant to the student’s concentration in other graduate programs at Northeastern.

Directed study: MA students may take up to six semester hours as “directed study” in specialized areas. All directed studies are subject to the prior approval of the Department and CSSH Graduate Student Academic Services, and are generally not approved for subjects in which courses are offered.

Internship: MA students, with prior approval, can earn academic credit through a supervised internship experience that carries an academic component. MA students are limited to three semester hours of internship credit. A petition with appropriate approvals is required for all internships.

MA Thesis: MA students may pursue, with prior approval, an optional thesis of six semester hours of total credit. Thesis proposals must be approved by a thesis committee comprised of two full-time members of the graduate faculty and the Graduate Coordinator for the Department. This process generally begins at the beginning of the semester prior to when the student plans on completing their thesis.

Residence Requirement: MA students are required to take at least 24 semester hours of credit as on-campus courses.

PROGRAM STRUCTURE AND ADMINISTRATION

The Master of Arts Committee provides general oversight for the program. Decisions regarding individual courses and minor program changes are within the jurisdiction of this committee. Major changes must be approved by the Political Science Department.
MASTER OF SCIENCE IN SECURITY AND RESILIENCE STUDIES

Security and Resilience Studies is an emerging field of inquiry that focuses on how global, national, and subnational actors manage a range of chronic transnational challenges that can be destabilizing to societies such as terrorism, organized crime, weapons proliferation, cyber attacks, bio-terrorism, climate change and catastrophic disasters, migration, and radicalization. It explores how strategic doctrines, organization processes, bureaucratic behaviors and security tools and tactics are adapting to these challenges by placing greater emphasis on resilience. Resilience is a concept rooted in multiple disciplines that is gaining widespread currency at the community, societal, and global levels given the prevalence of human-made and naturally-occurring threats that do not lend themselves to preventive and protective measures. Strategies for dealing with these threats emphasize measures that mitigate, respond to, recover from, and adapt to risk so as to safeguard essential functions and societal values. Many of these measures involve the role of technologies, system design, and engineering as well as policy, regulatory, and governance issues. Students at Northeastern who enroll in the MS in Security and Resilience Studies will be prepared to inform and support domestic and international efforts to deal with the major sources of turbulence in 21st Century.

DEGREE REQUIREMENTS

To earn the Master of Science (MS) in Security and Resilience Studies degree at Northeastern, you must successfully complete 30 semester hours of credit. Full-time students can expect to complete the degree within one calendar year. Coursework is divided between 12 credits in a core courses required of all MS students, 12 elective credits within a chosen specialization, and a 6 credit capstone course (with some experiential component). These requirements are described in more detail below. Additionally, full course listings can be found under the section Graduate Courses in the Department of Political Science located later in this guide.

This program can be completed either in residence at Northeastern University’s Boston campus or by students who live outside the Boston area. The core courses are offered in a “hybrid” format with much of the course content available in an online format, but students and the professor meet in extended face-to-face sessions, typically once per month. Low-residency students have the option of selecting elective courses that are available in a fully online format. Traditional students can select either traditional classroom-based courses or online courses to meet their 12 elective credits.

Satisfactory progress in the MS Program includes maintaining a grade point average of 3.000. Students must attain a final cumulative grade point average of at least 3.000 in all course work, as well as a 3.000 in all 5 Core Requirements (including Capstone) to qualify for the Master of Science degree.

Please see page 27 in this guide for the full academic progress policy for our graduate programs.
CURRICULUM

Core Courses
All students in the MS in Security and Resilience Studies will be required to take the 12 semester hours of courses including Security and Resilience Policy. This course introduces students to concepts and theories of Security and Resilience Studies and provides a foundation for further coursework in the field. It offers a unique theoretical foundation for security studies nationally. The other Core Courses are Critical Infrastructure Resilience, an interdisciplinary course developed in conjunction with the College of Engineering, as well as International Security and a speaker series seminar in Controversial Issues in Security Studies.

- POLS 7341 Security and Resilience Policy (3 SH)
- POLS 7342 Security and Resilience Studies Toolkit (1 SH)
- POLS 7347 Controversial Issues in Security Studies (1 SH)
- POLS 7369 International Security (3 SH)
- POLS 7704 Critical Infrastructure Resilience (4 SH)

Specialization and Elective Courses
In addition, students will complete at least 12 additional credits in a chosen specialization, from the interdisciplinary list of elective courses (see below). In addition to courses grounded in political science and public policy, this list also includes the opportunity for students to select from a wide variety of technical and scientific fields including cybersecurity policy, business sustainability, health care systems, urban sustainability, and infrastructure design. Students may petition the Program Director to include other elective courses on a case-by-case basis; similarly students may choose to define their own area of specialization. In the pre-defined domain specializations below students should take the recommended specialization courses, which have been developed specifically for this program.

Capstone Course
Students will have two options for completing their capstone project. First, students could conduct a capstone course research or consulting project under the supervision of a faculty adviser. Second, students may complete a graduate Dialogue course during Summer 1 or 2 that would include an international experience for five weeks followed by two weeks of researching and writing a capstone project paper. (6 credits)
Specialization and Elective Course List

The recommended foundation course for each Specialization is denoted with *

Counterterrorism and Conflict Studies
  • CRIM 7242 Terrorism and International Crime
  • SOC 7231 Sociology of Violence
  • POLS 7343 Counterterrorism*
  • POLS 7344 Hard Power, Soft Power, and Smart Power
  • POLS 7360 Ethnic Political Conflict
  • POLS 7361 U.S. National Security Policy
  • POLS 7363 Politics of Revolution and Change
  • POLS 7364 Terrorism, Violence, and Politics
  • POLS 7365 Totalitarian and Oppressive Government
  • POLS 7366 Genocide in a Comparative Perspective
  • POLS 7368 Crisis Politics

Cybersecurity Policy and Information Assurance
  • POLS 7441 Cyberconflict in the International System*
  • IA 5001 Cyberspace Technology and Applications
  • IA 5010 Foundations of Information Assurance
  • IA 5200 Security Risk Management and Assessment
  • IA 5210 Information System Forensics
  • IA 5240 Cyber Law
  • IA 5250 Decision Making in Critical Infrastructure

Resilient Cities
  • POLS 7314 Urban Government and Politics
  • POLS 7346 Resilient Cities*
  • PPUA 6201 Terrorism and International Crime
  • PPUA 5262 Big Data for Cities
  • PPUA 5266 Designing Participatory Urban Infrastructures
  • PPUA 5261 Dynamic Modeling for Environmental Investment and Policy Making
  • PPUA 5263 GIS for Urban Policy
  • PPUA 7237 Advanced Spatial Analysis of Urban Systems
  • PPUA 6205 Research Design and Methodology in Urban and Regional Policy
  • PPUA 6206 - 6213 Research Toolkit for Urban and Regional Policy
  • PPUA 5265 Urban and Regional Policy for Developing Countries
  • PPUA 7238 Climate Change & Global Urbanization
  • LPSC 7312 Cities, Sustainability & Climate Change
Security Administration, Management, and Policy

- POLS 7202 Quantitative Techniques
- POLS 7203 Techniques of Policy Analysis
- POLS 7301 Public Personnel Administration
- POLS 7302 Organizational Theory and Management
- POLS 7303 Public Budgeting
- POLS 7304 Economic Analysis and Institutions
- POLS 7305 Institutional Leadership and the Public Manager
- POLS 7442 Homeland Security and Resilience Law and Policy*
GRADUATE CERTIFICATE IN SECURITY & RESILIENCE STUDIES

The goal of the Graduate Certificate in Security & Resilience Studies is to prepare students to manage contemporary transnational risks through gaining a synthetic understanding of the principles and policies for Security and Resilience of critical systems.

- Passing a core course in Security and Resilience Policy that will introduce students to the synthetic approach to managing transnational risks.
- Passing recommended foundation courses to cyberspace policy, security administration, and counterterrorism specializations that provide a broad perspective on transnational threats and the means states use to address them.
- Learning how to work with others in groups and exercise leadership in teams through completion of group assignments and projects.

CERTIFICATE REQUIREMENTS

The certificate requires students to take four (4) courses for a total of 12 semester hours. Some courses will be a hybrid format with four set face-to-face experiences per semester combined with an online component. Additional face-to-face experiences may be available for Boston-based students although students are not required to come to campus more than four times per semester. This flexible experience offers interactive online course content and activities in tandem with structured live events that include a speaker series and interactive team project sessions.

CURRICULUM

Required Courses:

- POLS 7341 Security and Resilience Policy
- POLS 7343 Counterterrorism
- POLS 7369 International Security

Elective Courses:
Choose one (1) from the following list:

- POLS 7442 Homeland Security and Resilience Law and Policy
- POLS 7346 Resilient Cities
- POLS 7441 Cyberconflict in the International System
ACADEMIC RESOURCES AND SUPPORT

FINANCIAL AWARDS AND FELLOWSHIPS

Financial aid at Northeastern University is available through two major sources. First, the University’s Office of Financial Aid, located at 354 Richards Hall, provides information and applications for a number of university-wide, state, and federal grant and loan programs. Second, the Department of Political Science nominates students for financial support through Teaching Assistantships, Northeastern University Graduate Student Scholarships, Research Assistantships, and, for doctoral candidates, Senior Graduate Assistantships.

Students can find information on applying for loans, scholarships, and work-study opportunities through Northeastern University’s Office of Financial Aid in 354 Richards Hall or by calling (617) 373-5899.

**Departmental Awards:** Departmental financial support consists of Teaching Assistantships, Graduate Student Scholarships, Research Assistantships, and, for doctoral candidates, Senior Graduate Assistantships. We do not require a separate application for any of these awards. New students only need to indicate their interest in assistantship consideration on their admission application and continuing students will automatically be considered when funds are available. Award decisions are made by a committee of the department and are based upon merit. Final award determination is made by The CSSH Graduate Student Academic Services.

Students with financial awards through the Department of Political Science must maintain the minimum grade point average mandated by their particular program at all times. In addition, if receiving an incomplete grade in a course, an incomplete grade contract must be on file with The CSSH Graduate Student Academic Services and Registrar’s Office and all coursework to satisfy the incomplete must be completed within six weeks of the final exam week of the semester in which the incomplete was taken. Failure to comply with these rules will mean the loss of financial aid through the Department of Political Science. Additionally, students should refer to the specific terms of their award sent at the time the award is offered, including the maximum number of years a student is eligible for department controlled financial assistance.

**Student Graduate Assistantships (SGAs)** provide a tuition scholarship as well as a stipend in return for academic assistance to the department. Students with a SGA award may serve as teaching assistants by leading discussion sections in introductory undergraduate courses, grading student exams, responding to student questions, and supporting faculty research and teaching. Also, students with a SGA award may serve as an instructor by assuming all responsibilities for a class as the official instructor-of-record. Generally, students must have achieved PhD candidacy (passed comprehensive exams) to be an instructor. SGA awards are for ten or twenty hours of work per week, depending upon the terms of the award. The SGA stipend is slightly higher for those students who have achieved PhD candidacy. Students must be a full-time PhD student to receive a SGA award.
**Graduate Student Scholarships (GSSs)** provide a tuition waiver covering a predetermined number of credits for each fall and spring semester. There is no work requirement. GSSs can only be awarded to full-time students.

**Research Assistants (RAs)** receive a tuition scholarship as well as a stipend in return for twenty hours per week of research assistance to a faculty member in the department. RAs are funded through grants received by faculty and are not available every year.

**ADVISING**

Academic advising is a critical part of a student’s experience in the graduate program. Advising is conducted by a designated faculty member and covers full-year planning of courses and general college and departmental policies. Advising will cover substantive questions in the student’s field of study as well as long-term academic and career planning. New students are assigned faculty advisors according to their intended area of specialization and the overall availability of specific faculty members.

The Department of Political Science requires that all provisional students and students placed on academic probation meet with their advisor before registration.

**INTERNSHIPS**

Internships are intended to provide work-related experience for students in areas where they may wish to pursue their careers. Graduate-level interns normally participate in professional activities such as administration, planning, research, policy formulation and implementation, and budgeting. Clerical and support tasks, by contrast, are to be kept to a minimum. At the same time, the intern should be provided an agency-wide perspective and gain exposure to a variety of tasks rather than become absorbed in a single narrow activity.

The internship experience is valued chiefly for its contribution to the educational process. Accordingly, monetary compensation, while desirable, should not be a factor in deciding on the desirability or appropriateness of different assignments. While the sponsoring agency or organization is encouraged to provide a stipend, such arrangements are at their discretion and a matter of negotiation between the intern and the sponsor.

The internship coordinator will work with the student to identify and arrange an appropriate internship. The internship coordinator may serve as the faculty advisor for that internship experience, or another faculty member may be assigned to serve as the advisor. The site supervisor at the internship agency will also be involved in oversight and assessment of the student’s internship experience.

Interns are expected to work a minimum of 300 hours over an academic semester. Interns are required to write a paper (minimum of 15 pages) on their experience in which they describe their internship activities and present an analytical discussion relating their internship to the academic curriculum. No
credit will be given for work done in a professional position already held by a student. Internships must be approved in advance of the internship semester by the internship coordinator by completing an internship application (found on the department website.)

Over the course of the academic semester, each intern will meet with his/her internship advisor at least four times to discuss the internship experience. If possible, several students engaged in internships may meet together with an internship advisor to share their experiences. Near the end of an internship the site supervisor will complete an evaluation and will be encouraged to submit a letter of recommendation to be included in the intern’s academic file. The internship advisor will assign a final grade based on the student’s performance in meetings and on the paper assignment as well as the appraisal by the site supervisor at the internship agency.

DIRECTED STUDY

A directed study is an individual reading and research course arranged between a student and faculty member. A directed study is an opportunity for more in-depth analysis of a particular topic or the study of a subject matter typically not covered in the department’s curriculum. Directed studies typically carry three semester hours of academic credit.

Prior to the start of a directed study, the student should complete the Directed Study form available from the College. This form will list required readings, writing assignments, and other work to be performed by the student, as well as the criteria for determining the student’s grade. This document represents a contract between the student and faculty member that clarifies the responsibilities and expectations of each party. The Directed Study form requires approval of the instructor, graduate program chair, and College graduate office.

COLLOQUIA AND WORKSHOPS

The department, as well as other entities at Northeastern University, sponsors guest lectures on a wide range of academic topics, and offers occasional workshops to improve skills important for graduate student performance and post-graduate employment. Information on any such events will be distributed via e-mail and posters, posted on the Northeastern calendar, or announced in class.
CAREER SERVICES

Do not wait until the semester before you graduate to think about your career after graduate school. It might be too early to apply for positions but it is never too early to gather career advice, explore options, make connections, and develop the skills and experiences you need for your desired career. The following are some of the many services offered to graduate students through our Career Services Office:

- Interviewing Workshops
- Curriculum Vitae and Resume writing advice
- An Internship Database (accessible through your MyNEU account)
- Internship and Career Fairs
- Forums and recruiting events related to careers in Government
- Numerous workshops and small-group career advising sessions

Visit the Career Services website for more specific information on advising and events, www.northeastern.edu/careerservices/.

STUDENT GROUPS

There are over 200 student organizations at Northeastern University covering a wide range of activities and interests. Most of them welcome participation by graduate students. For a full listing and information on how to become involved, please visit, www.northeastern.edu/studentactivities/. Of these organizations, the following are especially likely to be of interest to our graduate students.

Political Science Graduate Student Association: "Poli Tea" is the name of the luncheon hosted by the Political Science Department's graduate student association. Each week, (usually on Wednesdays at noon,) Political Science graduate students come together to have lunch (free food!), talk politics, and listen to guest speakers.

Graduate Student Government: Graduate Student Government (GSG) is the official voice for graduate students at Northeastern University. They address concerns, raise awareness, and promote graduate student life on Huntington Avenue and abroad. Additional information can be accessed from the GSG website at http://www.northeastern.edu/gsg/.

The Minority Graduate Student Association: The Minority Graduate Student Association (MGSA) serves as a catalyst in providing retention, support, and training for minority students currently pursuing a graduate degree as well as those interested in pursuing a graduate degree. For more information and questions, please visit http://www.northeastern.edu/mgsa/.
PROFESSIONAL ASSOCIATIONS

Graduate students are encouraged to participate in professional associations relevant to their particular career goals. These associations publish a variety of journals; bulletins announcing local, regional, and national meetings, panels, calls for papers, and general reports; and newsletters containing short articles of interest, not to mention career advice and networking opportunities.

- American Political Science Association: [www.apsanet.org](http://www.apsanet.org)
- American Society for Public Administration: [www.aspanet.org](http://www.aspanet.org)
- Association for Budgeting and Financial Management: [www.abfm.org](http://www.abfm.org)
- Association of Collegiate Schools of Planning: [www.acsp.org](http://www.acsp.org)
- International Studies Association: [www.isanet.org](http://www.isanet.org)
- Network of Schools of Public Policy, Affairs, and Administration: [www.naspaa.org](http://www.naspaa.org)
- Urban Affairs Association: [www.udel.edu/uaa](http://www.udel.edu/uaa)
- Young Nonprofit Professionals Network: [www.ynpboston.org](http://www.ynpboston.org)

The APSA and many of the regional political science associations have special graduate student membership fees. Dues for other organizations may be based upon gross income. Many offer resources at no cost.

PARTICIPATION IN PROFESSIONAL MEETINGS AND CONFERENCES

Students are encouraged to attend local, regional, or national meetings of their respective professional associations when possible and to the extent that doing so serves career goals. Doctoral candidates in particular are encouraged to present their research at such meetings whenever possible. The Department maintains a travel fund to assist graduate student participation in or attendance at professional meetings. Funding is available to all graduate students, with priority given to doctoral students offering papers. Students seeking funding must complete and submit an application form, available on the Department website by quarterly deadlines. Funding may also be available through the university’s Graduate Student Government as well as other sources.

LOCAL LEADERSHIP AND NETWORKING OPPORTUNITIES

Another way to become more involved, network, and have a positive influence on the community is to join locally based professional groups or to attend professional development training seminars. Our list below is far from exhaustive and you will find that many of these organizations have links to other opportunities that might better match your interests.

- The Commonwealth Seminar ([www.masscs.org](http://www.masscs.org))
• The Environmental Leadership Fellowship Program ([http://www.elpnet.org](http://www.elpnet.org))
• The Graduate Consortium on Women’s Studies ([http://web.mit.edu/gcws/](http://web.mit.edu/gcws/))
• The New Leaders Council ([www.newleaderscouncil.org](http://www.newleaderscouncil.org))
• ONEin3 Boston ([http://www.onein3boston.com](http://www.onein3boston.com))

**NU IDENTIFICATION CARDS**

Your Husky card serves as a master key to the major processes and services of the University. You will need to show this card in order to cash checks, borrow books, make payments, use physical education facilities, purchase parking stickers, use the library and gain entrance to University events. If you are a full-time or part-time student, you may obtain a student picture I.D. at Customer Service Center, 120 Hayden Hall or at other published locations during the start of the semester. You will need to present a photo identification card, such as a state license or passport.
PROGRAM RULES AND REGULATIONS

NORTHEASTERN UNIVERSITY ACCREDITATION

Northeastern University is accredited by the New England Association of Schools and Colleges, Inc., which accredits schools and colleges in the six New England states. Accreditation by the Association indicates that the institution has been carefully evaluated and found to meet standards agreed upon by qualified educators.

CHANGES IN PROGRAM RULES AND CURRICULA

The continuing development of the graduate programs in the Department of Political Science dictates occasional revision of curricula and program rules. When no hardship or disadvantage is imposed on the student because of changes, and when the offerings of the program permit, the student is expected to meet the requirements of the most recent Graduate Student Program Guide. However, if it can be demonstrated that doing so imposes a hardship or disadvantage, the requirements in the Graduate Student Program Guide of the year in which the student matriculated will be applicable.

STATEMENT ON ACADEMIC HONESTY

The Department of Political Science takes very seriously issues of academic dishonesty. According to the Student Handbook:

A necessary prerequisite to the attainment of the goals of the University is maintaining complete honesty in all academic work. Students are expected to present as their own only that which is clearly their own work in tests and in any material submitted for credit. Students may not assist others in presenting work that is not their own. Purchasing term papers from commercial firms or individuals is a serious violation of University policy. Offenders are subject to disciplinary action.

Academic dishonesty includes, but is not limited to, cheating on an examination, engaging in acts of plagiarism, stealing or destroying other students’ materials, and stealing or mutilating materials in the library. Such acts are against the spirit of scholarly inquiry and academic honesty. They harm other students and the reputation of the department.

Accordingly, any student in the graduate programs governed by the Department of Political Science who engages in an act of academic dishonesty shall at minimum be recommended for academic probation and shall receive a failing grade (F) for the course in question. The department also reserves the right to seek more severe sanctions, including expulsion from the university. Students should therefore make every effort to consult with faculty on appropriate standards for research and use of scholarly materials.
SATISFACTORY PROGRESS AND ACADEMIC PROBATION

Satisfactory progress is defined as complying with the various procedures and requirements of the respective graduate programs. Among these requirements is grade point average in all three programs, and for the PhD program, timely progress in sitting for the comprehensive examination, completing an approved dissertation proposal, and submitting a dissertation. A student who fails to make satisfactory progress is placed on academic probation, which is a warning that the student may not be allowed to continue in the graduate program unless the deficiency is addressed.

As noted, satisfactory progress includes maintaining a specified grade point average. All master’s level students must maintain an overall cumulative grade point average of 3.000. All doctoral students must maintain an overall cumulative grade point average of 3.500. In addition, students are expected to successfully complete a minimum of two-thirds of attempted semester hours. Any student who falls below the applicable standard in one academic semester will be placed on academic probation and must consult with his or her academic advisor. Any student who falls below any applicable standard for two consecutive semesters is subject to dismissal from the graduate program.

Additionally, receipt of financial support administered by the Department, College, or University is contingent on satisfactory academic progress toward the degree and specific guidelines as published in the terms of award. Students who have ungraded courses or courses graded as incompletes risk no longer being eligible for financial aid awards.

TRANSFER CREDIT

Course work completed prior to attending Northeastern University: Students who earned graduate credit at U.S. accredited universities other than Northeastern prior to acceptance into a departmental graduate program may petition to have credits counted toward degree requirements at the University.

To receive transfer credit, a student must submit a written petition, including the appropriate Credit Transfer Request Form, to the Political Science Graduate Programs office along with a course description, official transcript and course syllabus. A grade of at least a “B” must have been received in the course in order for it to be considered for transfer credit. Also, transfer credit is granted only for graduate course work that is deemed to be relevant to the student’s area of study and the course credits cannot have been used toward a prior degree. Final decisions for transfer credit are made by the Director of The CSSH Graduate Student Academic Services acting upon the recommendation of the department’s graduate program committee.

Approval to take a course outside Northeastern University: Students wishing to take a graduate course outside Northeastern University must seek prior approval from the departmental director of the graduate program. A written petition, including a course description and syllabus, should be submitted at least four weeks prior to the beginning of the semester in which the course would be taken. The
course must be deemed to be relevant to the student’s field of study. Only courses that are not offered
within the Department of Political Science or not comparable to those offered by the Department will be
considered for transfer credit. Please note, courses taken in Northeastern’s College of Professional
Studies are considered as external courses and will be adjusted based on a quarter to semester hour
basis.

A student seeking transfer credit for coursework completed at another university during the student’s
last semester should consult the graduate administrative coordinator about timing issues. Northeastern
has graduation clearance deadlines that may make it difficult to transfer credit during a student’s final
semester.

Master’s level students are limited to nine transfer credits. Doctoral students should consult the
curriculum section of their respective program description in the guidebook as well as their academic
advisors.

**UPPER LEVEL UNDERGRADUATE POLITICAL SCIENCE COURSES**

With the prior approval of the chair of the graduate program and CSSH Graduate Student Academic
Services officials, Master’s students may elect to take up to four undergraduate credits. Such
undergraduate courses must be upper level and directly relevant to the student’s graduate program.
This arrangement is only offered in rare circumstances in which other options do not exist for a specific
student. Final approval is at the discretion of The CSSH Graduate Student Academic Services and the
Office of the Registrar.

**REGISTRATION**

Registration begins two to five months prior to the start of the semester. Students are required to
register through their MyNEU accounts. You can activate your account by going to
www.mynue.neu.edu, where you will need to register for a username and password. Prior to
registration, students should consult with their academic advisor regarding course selection. All students
must be officially registered for each course by the end of the second week of classes but earlier
registration is strongly recommended.

**WITHDRAWALS**

In order to withdraw from a course, a student must officially drop the course through their MyNEU
accounts. Students should be cognizant of deadlines published at the registrar both regarding when a
course is dropped and when it is a withdrawal with a ‘W’ grade. Ceasing to attend class, or simply
notifying the instructor of intention to withdraw, does not constitute an official withdrawal. Upon
withdrawing or dropping a course students should consult with the Student Financial Services Office to
determine the effect of the withdrawal on their student bill or financial aid.
INCOMPLETES

A student who is unable to complete a course within the semester due to extraordinary circumstances may ask for an incomplete from the faculty member teaching the course. Granting an incomplete is at the discretion of the faculty member. The student and faculty member should agree on coursework required to complete the course. The Student and faculty person must fill out an Incomplete-Grade Contract available at http://www.neu.edu/customerservice/form-inc-grade.pdf. A copy of this form will be kept on file with the College and the department. Failure to fill out this form could have impacts on current and future financial aid, as well as a student’s standing with his/her degree program.

All incompletes should be made-up within one calendar year. If an incomplete is made up after one calendar year, the student must petition the department as well as the Director of The CSSH Graduate Student Academic Services to receive course credit. There is no guarantee or assurance that such credit will be granted.

In addition, if someone receiving an assistantship or scholarship receives an incomplete grade in a course, all coursework to satisfy the incomplete must be completed within six weeks of the final exam week of the semester in which the incomplete was taken. Failure to comply with these rules will mean the loss of financial aid through the Department of Political Science and possibly other sources.

TIME LIMITATION

For all Master’s level students, course credits earned in the program of graduate study or accepted by transfer are valid for a maximum of seven years unless an extension is granted by the Director of The CSSH Graduate Student Academic Services, acting upon the recommendation of the Department of Political Science. Students may petition in writing through the department to the Director of The CSSH Graduate Student Academic Services for such extensions.

For doctoral students who achieve candidacy, there is a five-year limit for completion of the dissertation.
COMMENCEMENT CLEARANCE

You must initiate the commencement process by registering for graduation via your MyNEU account. The process usually becomes available in the fall semester prior to the year in which the student plans to graduate. This will place your name on the commencement list and start the commencement process. You should register even if there is a chance that all your requirements will not be completed in time to graduate on a specific commencement date.

Students are responsible for ensuring that all grades have been recorded, all incomplete courses made up, and that petitions forwarded to the department or to the College have been acted upon prior to registration for graduation clearance. The student’s departmental file must also be complete with official transcripts from all undergraduate and graduate programs attended.

PETITION PROCESS

The following table specifies actions that require a petition, application, or form, supporting materials for the petition, and who must approve the petition. Department petition forms are available in this guidebook. Other required forms can also be found online through the respective office requiring the form.

Completed forms should be submitted to the Administrative Coordinator for Graduate Programs in Renaissance Park. **Students petitioning the Department for special consideration should always include a statement regarding their reason for the special request.**

GRADING POLICY

The Department of Political Science follows the grading policy established by The CSSH Graduate Student Academic Services as published in its General Regulations. The grading scale is from an A to a C-if credit is earned, with an F indicating unsatisfactory performance and no credit. Each letter grade has a grade point average assigned to it, ranging from 4.000 for an A to 1.667 for a C-

If a student seeks to raise his/her grade point average, the option is available to retake a class. The grade point average earned in the repeat class will be used in place of the previous grade. No more than two courses, or six semester hours of credit, may be repeated or taken as additional courses in order to satisfy the requirements of the degree.

NORTHEASTERN UNIVERSITY’S ANTIDISCRIMINATION POLICY

Northeastern University is committed to a policy of equal opportunity for all students and employees without regard to race, color, religion, gender, sexual orientation, national origin, or handicap or veteran status. The University prohibits discrimination in all matters involving admission, registration, and all official relationships with students, including evaluation of academic performance.

DELIVERY OF SERVICES

The University assumes no liability, and hereby expressly negates the same, for failure to provide or delay in providing educational or related services or facilities or for any other failure or delay in performance arising out of or due to causes beyond the reasonable control of the University, which cases include, without limitation, power failure, fire, strikes by University employees or others, damage by the elements and acts of public authorities. The University will, however, exert reasonable efforts, when in its judgment it is appropriate to do so, to provide comparable or substantially equivalent services, facilities or performance, but its ability or failure to do so shall not subject it to liability.
GRADUATE COURSES IN DEPARTMENT OF POLITICAL SCIENCE

The following are courses listed in our online catalog for the current school year. However, not all courses will be offered this academic year, and not necessarily when you are enrolled as a graduate student at Northeastern University. Departmental attributes, including required course and elective concentrations, are listed for each course. However, any graduate level course offered by the Department can be used to satisfy a general elective course requirement for any of the degree programs. For a full and up-to-date listing of courses and their descriptions please view http://www.northeastern.edu/registrar/.

FACULTY AND STAFF DIRECTORY

Faculty in Department of Political Science (Full-Time and Faculty with Partial Appointments in the Department)

Department Chair

John H. Portz  
Professor of Political Science and Interim Chair  
Ph.D., University of Wisconsin  
902 Renaissance Park  
617-373-3391  
j.portz@neu.edu  
Areas of Study: Public Policy and Administration, Education Policy, State and Local Government

Full-time Faculty

Max Abrahms  
Assistant Professor of Political Science  
Ph.D., University of California Los Angeles  
215-F Renaissance Park  
617-373-2796  
m.abrahms@neu.edu  
Areas of Study: International Security, International Relations Theory, Asymmetric Conflict, Terrorism

Daniel Aldrich  
Professor of Political Science, Public Policy and Urban Affairs; Co-Director, Masters Program in Security and Resilience  
Ph.D., Harvard University  
215-K Renaissance Park  
617-373-8189  
d.aldrich@neu.edu  
Areas of Study: Disasters And Resilience, Civil Society And The State, Controversial Facilities, Countering Violent Extremism, Sex Differences And Judgement, East Asian Politics

Amílcar A. Barreto  
Associate Professor of Political Science  
J.D., Ph.D., SUNY, University at Buffalo  
225-K Renaissance Park  
617-373-2783  
a.barreto@neu.edu  
Areas of Study: Comparative Politics, Ethnicity and Nationalism, International Law, Latino Politics
Nicholas Beauchamp  
*Assistant Professor*  
Ph.D., New York University  
931 Renaissance Park  
617-373-4194  
n.beauchamp@neu.edu  
Areas of Study: American Politics, Political Psychology, Online and Social Networks, Political Methodology

Natalie Bormann  
*Teaching Professor*  
Ph.D., University of Newcastle upon Tyne, UK  
932 Renaissance Park  
617-373-4402  
n.bormann@neu.edu  
Areas of Study: International Relation, European Politics, Transatlantic Relations, International Security

James J.T. Connolly  
*Assistant Professor of Political Science and Public Policy and Urban Affairs*  
Ph.D., Columbia University  
360G Renaissance Park  
617-373-8900  
j.connolly@neu.edu  
Areas of Study: Urban Planning, Poverty, Geographic Information Services (GIS), Environmental Stewardship, Organizational Networks

Mai’a K. Davis Cross  
*Assistant Professor*  
Ph.D., Princeton University  
920 Renaissance Park  
617-373-6986  
m.cross@neu.edu  
Areas of Study: International Relations, European Foreign and Security Policy, Diplomacy, Public Diplomacy, Soft/Smart Power, Transnational Networks

Philip D’Agati  
*Teaching Professor*  
Ph.D., Northeastern University  
927 Renaissance Park  
p.d’agati@neu.edu  
Areas of Study: International Relations, Nationalism, Model UN, NATO, and Arab Leagues
Candice Delmas
Assistant Professor of Philosophy and Political Science, Associate Director of the Politics, Philosophy, and Economics Program
Ph.D., Boston University
360 Huntington Ave
617-373-2796
c.delmas@neu.edu
Areas of Study: Ethics, Social, and Political Philosophy, and Philosophy of Law, Limits of Political Authority

Michael S. Dukakis
Distinguished Professor of Political Science
J.D., Harvard University
921 Renaissance Park
617-373-4396
m.dukakis@neu.edu
Areas of Study: Public Policy, Health Policy and Politics, State and Local Government, Public Management

Stephen E. Flynn
Professor of Political Science and Director, Center for Resilience Studies Co-Director, George J. Kostas Research Institute for Homeland Security and Co-Director, Masters Program in Security and Resilience
Ph.D. in International Relations, The Fletcher School of Law and Diplomacy, Tufts University
215-H Renaissance Park
s.flynn@neu.edu
Areas of Study: Catastrophic terrorism; maritime and port security; border control modernization; critical infrastructure protection; trade and transportation security

Denise Garcia
Associate Professor of Political Science and International Affairs
Ph.D., University of Geneva, Switzerland
210-L Renaissance Park
617-373-2879
denisegarcia@neu.edu
Areas of Study: International Security, The International Arms Trade
Robert E. Gilbert
Edward W. Brooke Professor of Political Science
Ph.D., University of Massachusetts, Amherst
922 Renaissance Park
617-373-2799
r.gilbert@neu.edu
Areas of Study: American Politics, Presidency, Parties and Elections, Media and Politics

Ronald D. Hedlund
Professor of Political Science
Ph.D., University of Iowa
913 Renaissance Park
617-373-5957
r.hedlund@neu.edu
Areas of Study: Legislative Politics, Public Policy, Methodology

Benedict S. Jimenez
Assistant Professor of Political Science
Ph.D., University of Illinois
310-Q Renaissance Park
617-373-4401
b.jimenez@neu.edu
Areas of Study: State and Local Public Finance, Fiscal Federalism, Public Budgeting, Performance Management and Strategic Management

William D. Kay
Associate Professor of Political Science
Ph.D., Indiana University
310-T Renaissance Park
617-373-4401
w.kay@neu.edu
Areas of Study: Public Policy and Administration, Organization Theory, Science and Technology Policy

David M. J. Lazer
Distinguished Professor of Political Science and Computer and Information Sciences, Co-Director of NU Lab for Texts, Maps, and Networks
Ph.D., University of Michigan– Ann Arbor
132 Nightingale Hall
617-329-1010
d.lazer@neu.edu
Areas of Study: Network Analysis, Technology and Public Policy
Ioannis Livantis
Lecturer for International Affairs Program
Ph.D., University of Florida
210-D Renaissance Park
617-373-4697
Areas of Study: International Affairs, Comparative Public Policy, The European Union and Governance

William G. Mayer
Professor of Political Science
Ph.D., Harvard University
907 Renaissance Park
617-373-4410
w.mayer@neu.edu
Areas of Study: American politics; public opinion; media and politics

Eileen L. McDonagh
Professor of Political Science
Ph.D., Harvard University
919 Renaissance Park
617-373-4403
e.mcdonagh@neu.edu
Areas of Study: American Politics, Gender and the Law, American Political Development, Methodology

William F. S. Miles
Professor of Political Science
Ph.D., Fletcher School of Law and Diplomacy
928 Renaissance Park
617-373-3950
b.miles@neu.edu
Areas of Study: Comparative Politics, Political Development, Political Culture, Religion and Politics

David A. Rochefort
Arts and Sciences Distinguished Professor of Political Science
Ph.D., Brown University
923 Renaissance Park
617-373-4399
d.rochefort@neu.edu
Areas of Study: Public Policy, Health and Mental Health Care, Social Welfare, Methodology, Community-Based Research, Student Leadership
Kirsten L. Rodine-Hardy  
Assistant Professor of Political Science  
Ph.D., University of California, Berkeley  
215-L Renaissance Park  
617-373-4411  
k.rodinehardy@neu.edu  
Areas of Study: Comparative/International Political Economy, International Relations, Comparative Politics, Europe

David E. Schmitt  
Professor of Political Science  
Ph.D., University of Texas  
929 Renaissance Park  
617-373-4412  
d.schmitt@neu.edu  
Areas of Study: Comparative Politics, International Relations, Northern Ireland, Ethnic Conflict, U.S. National Security Policy

Denis J. Sullivan  
Professor of Political Science and Director of Middle East Center  
Ph.D., University of Michigan  
210-P Renaissance Park  
617-373-4409  
d.sullivan@neu.edu  
Areas of Study: Comparative Politics, Mid. East Studies, Islamism, Egyptian Politics, Arab-Israeli Conflict

Michael C. Tolley  
Associate Professor of Political Science  
Ph.D., Johns Hopkins University  
360-D Renaissance Park  
617-373-2780  
m.tolley@neu.edu  
Areas of Study: Public Law, Judicial Process, Comparative Constitutionalism, American Politics

Thomas J. Vicino  
Associate Professor of Political Science, Public Policy and Urban Affairs; Director, MPA Program  
Ph.D., M.P.P., University of Maryland Graduate School Baltimore  
310-P Renaissance Park  
617-373-2619  
vicino@neu.edu  
Areas of Study: Urban Public Policy, Political Economy of Metropolitan Areas, Suburbanization and Smart Growth, Globalization and the City
Dov Waxman
Professor of Political Science, Co-Director of the Middle East Center for Peace, Culture, and Development
Ph.D., Johns Hopkins University

* A total of up to 2 relevant elective courses in other departments can be taken outside the Political Science Department. Additionally, most MA students take no classes online but up to two online courses can be taken toward the MA degree if the student chooses to pursue this option.

** For the Security Studies Concentration in addition to POLS 7207, Seminar in International Relations one of the three concentration courses must be POLS 7341 Security and Resilience Policy
