Introduction

Crime is a controversial subject. On one hand, crime is immoral and abhorred; the social, public health, and economic costs of crime and victimization are staggering; and politicians often focus campaigns around a “tough on crime” philosophy. On the other hand, there is a societal fascination with crime via media, movies, and television shows; and the most popular youths are often rebellious, delinquent, and even criminal.

This course uses these juxtapositions to facilitate discussion and to provide accessibility to students with a wide variety of backgrounds, interests, and goals. For students interested in crime research, the course will provide a solid foundation of criminological theory and an introduction to the methods used for studying crime issues. For students interested in criminal justice and legal policy issues, the course will provide a framework for understanding, critically evaluating, and applying criminological theory and research to policy. For all students, the course will provide a framework for digesting and assessing research and discussions of crime and crime policy in the media and political spheres.

Course Description

A “criminal justice” course focuses primarily on the actors and institutions involved in the formal response to crime. A “criminology” course, by contrast, focuses mainly on crime itself: its forms, prevalence, and causes. The first part of this course will examine the relationship between crime and delinquency, the definition of “crime,” and the nature and extent of crime. Measurement issues will be discussed, as will different types of crime and delinquency. The second part of the course will detail different theories of crime causation. The third part of the course will focus on how to control and prevent crime and analogous behaviors. We will touch upon “criminal justice” issues in this part of the course and as they arise in other parts of the course, but this is not the explicit focus of this course as a whole.
Course Learning Goals
During the semester, course readings and discussions will provide you with an understanding of:

- The extent of crime in the United States
- How we use theory to explain observable phenomena
- The details, validity, and contemporaneous applicability of major theories of crime and delinquency
- How we evaluate theoretical explanations via research
- How we form our own opinions of crime and delinquency from the accumulated research

Course Readings

A series of additional readings will be made available via Blackboard.

Course (and Student) Expectations/Requirements
This course will be intensive. This course will go quickly. This course will require reading and constant, active participation. This course will utilize a variety of written and oral learning techniques: I will teach you; you will teach me; and you will teach each other.

A number of different graded assignments will be utilized to fulfill the course goals. Graded assignments include Blackboard quizzes, group exercises, and a final course project. These assignments are based on assigned readings (which must be completed prior to class), material (not included in the readings) presented in class, and class discussions. *Note:* if I do not feel that a large enough portion of the class is regularly contributing, or if I suspect that a large portion of students have not been completing the readings, I reserve the right to institute “pop” quizzes. If instituted, these additional quizzes would count for up to 15% of the final grade (with the contributions of the Blackboard quizzes, group exercises, and final course projects diminishing accordingly). Graded assignments, along with grade distributions, are detailed below.

You will also receive a class and group participation grade, as discussed below. While attendance will not count directly toward your course grade, it will count indirectly through the class and group participation grade. In addition, much of the material included in the Blackboard quizzes is not directly covered by the readings but instead covered in class; attendance will therefore impact your ability to perform well on the quizzes. Finally, class provides an opportunity to clarify the course readings.

Blackboard
You can access main blackboard site at [http://blackboard.neu.edu](http://blackboard.neu.edu). You are responsible for checking this site regularly as course information will be added to the site.
Blackboard training courses are offered for free through the University. See a representation from the “Help Desk” at the Info Commons in Snell Library.

**Communication**

Students are expected to check Blackboard as well as their email on a regular basis. Important information such as assignments, class cancellations, and changes in course material may be relayed via Blackboard and email.

**Class Policies**

*Extended Absences*

In the rare instance where a student expects to miss class for an extended period of time (i.e., serious illness) or multiple classes regarding the same issue, he or she must contact me as soon as possible. Students must provide a documented reason for an extended absence in order to make any arrangements regarding missed work. All circumstances will be evaluated on an individual basis.

*Laptops, Cell Phones, and Pagers*

You are not permitted to use the internet in the classroom; laptops should only be used for taking notes. Please turn off your cell phones before coming to class. This includes text messaging! If I suspect you of using technology for purposes unrelated to the course, I reserve the right to disallow the use of technology in the classroom.

*Personal Responsibility and Extra Credit*

I do not “give out” grades – you earn them. When a grade is earned by you, I will not change it. If you need help, ask for it; do not wait until it is too late to seek help. Absolutely no extra credit will be given or accepted. Arrive to class on time, come prepared, respect others’ views, and turn in assignments on time.

*Missing Assignments*

I must be notified in advance if you anticipate missing a quiz or assignment. Acceptable “excuses” relate to serious emergencies such as a death in the family and serious illness. Documentation may be requested and I reserve the right to approve or deny any such requests. Quizzes, group exercises, and the final course project (as well as any “pop” quizzes) cannot be made up because of an unexcused class absence. Other instances will be handled on a case-by-case basis.

**Contacting Me**

If you need to contact me, use the email provided above. Please put “CRIMINOLOGY” in the subject line of the email.
Academic Integrity

All students enrolled in this course must adhere to Northeastern University’s policy on “Academic Honesty and Integrity.” Those of you who are unfamiliar with this policy are expected to read it online at: http://www.neu.edu/osccr/academichonesty.html.Violations of the academic honesty and integrity policy will not be tolerated, and will be reported to university officials. I take this policy very seriously and will make every effort to ensure it is strictly followed. If you are caught cheating, you will receive a failing grade for the course – no exceptions. If you are in any way unclear about this policy, please come speak to me.

Plagiarism

Plagiarism of any kind is unacceptable. If you have any questions about what constitutes plagiarism, be sure to ask me. In general, to avoid plagiarism: if you directly quote OR paraphrase OR use specific information (e.g., statistics) from ANY source (one of your previous papers, another student, an internet site, an academic article, a book, etc.), you must give credit to that source via quotation marks and/or a properly formatted citation/reference. I expect every student to understand plagiarism and to complete their own work.

For more information on this, Northeastern has an Academic Integrity Policy outlined on pages 36 and 37 of the Student Handbook: www.northeastern.edu/admissions/pdfs/UndergradHandbook.pdf. I encourage all students to review this policy and to contact me with any questions.

Students with Disabilities

Any student who may require special accommodations for this course should notify me as soon as possible. You may need to register with the university’s Disability Resource Center (DRC). The DRC can provide students with services such as note-takers and extended time for taking exams. The DRC is located in 20 Dodge Hall and can be reached at 617-373-2675.

Blackboard Quizzes

There will be 6 Blackboard quizzes throughout the semester. Five of the 6 quizzes will be 30 questions; one quiz will be 40 questions. Quizzes will typically consist of multiple-choice questions with 4 or 5 answer choices, and each question will be worth 3 points. As
a whole, the quizzes will be worth 570 out of 1000 possible class points. Students will have roughly 30–40 minutes to complete each quiz. The quizzes are based on assigned readings (which must be completed prior to class), material (not included in the readings) presented in class, and class discussions.

**Group Exercises**

There will be 4 group exercises throughout the semester. The same students will be in your group for the majority of the class exercises. Each group exercise is worth 50 points or 5% of your final course grade. These exercises will be assigned in class and will require research and PPT presentations on various topics. I will provide clear guidelines for working on and presenting these projects in class. Grading rubrics will be made clear when the exercises are assigned.

**Final Course Project**

During the last week of the term, groups will summarize one theoretical perspective discussed during the course of the semester and apply the theory to today’s social context. The final course project is worth 130 points or 13% of your final course grade. I will provide clear guidelines for the final course project in class, and grading rubrics will be made clear when the final course project is assigned.

**Class and Group Participation**

The class and group participation grade (100 points or 10% of your final course grade) is based equally on two components.

- The first component assesses each student’s willingness to answer questions, ability to raise thoughtful questions related to course material, and capacity to respond thoughtfully to course topics and class readings. Although attendance is not a direct part of the final grade, missing class limits your ability to participate in class discussions. Therefore, repeated absences will indirectly influence your final course grade through the class participation grade.
- The second component assesses each student’s contribution to the group and students’ choice exercises. At the end of the semester, each student will provide a written assessment indicating the percentage of group work that was completed by each student in the group, along with a written explanation of the work allocation. The points given for the group participation grade in the course will be commensurate with the aggregated work allocation provided by students.

Note that absolutely no extra credit will be given or accepted in this course. Grades will be based strictly on the assignments above.

Class Schedule

Week 1

Introduction to Criminology

M  5/9  Course Introduction
Readings:
• Syllabus (Blackboard)
• How to Read and Interpret Research (Blackboard)

Establishing a Foundation
Readings:
• Minneapolis Domestic Violence Experiment (Blackboard)

W  5/11  Quiz 1 opens, 5pm

The Case of Nushawn Williams
Readings:
• Nushawn Williams – The AIDS Predator (Blackboard)

The Nature and Extent of Crime
Readings:
• “The Nation’s Two Crime Measures” (Blackboard)
Week 2

“I Chose to Engage in Crime Because the Benefits Outweighed the Potential Costs”
Classical Criminology: Historical Underpinnings to Contemporary Theory

M 5/16 Quiz 1 closes, 12:30pm
Group Exercise I (assigned)

What is a Theory?

Classical Criminology and Contemporary “Choice” Theories of Crime
Readings:

- “The Origins of Modern Criminology” (Cullen pp. 21-26)
- “An Essay on Crimes and Punishments” by Cesare Beccaria (Cullen pp. 27-30)
- “Reconceptualizing Deterrence Theory” by Mark C. Stafford and Mark Warr (Cullen pp. 431-436)
- “Crime as a Rational Choice” by Derek B. Cornish and Ronald V. Clarke (Cullen pp. 437-442)
- “Armed Robbers in Action” by Richard T. Wright and Scott H. Decker (Cullen pp. 443-453)

W 5/18 Quiz 2 opens, 5pm
Group Exercise I (presented)
Group Exercise II (assigned)

Environmental Criminology: “Opportunity” Theories of Crime
Readings:

- “Environmental Criminology” (Cullen pp. 454-458)
- “Routine Activity Theory” by Lawrence E. Cohen and Marcus Felson (Cullen pp. 469-479)
- “Situational Crime Prevention” by Ronald V. Clarke (Cullen pp. 480-488)
- Peruse the Center for Problem-Oriented Policing Webpage: http://www.popcenter.org/
**Week 3**

“It Wasn’t My Fault: I Was Born Like (or Born Into) This”

*Positivist Criminology: From Biological to Sociological Theorizing*

**M 5/23**

**Quiz 2 closes, 12:30pm**

*Group Exercise II (presented)*

*Biosocial Criminology: From the “Criminal Man” to Epigenetic Research*

Readings:
- “Biosocial and Trait Theories” (Cullen pp. 34-46)
- “Unraveling Juvenile Delinquency” by Sheldon Glueck and Eleanor Glueck (Cullen pp. 47-58)
- “Personality and Crime: Are Some People More Crime Prone?” by Avshalom Caspi et al. (Cullen pp. 86-96)

**W 5/25**

**Quiz 3 opens, 5pm**

*Group Exercise III (assigned)*

*Social Disorganization Theory: Conceptualization and Extensions*

Readings:
- “The Chicago School: The City, Social Disorganization, and Crime” (Cullen pp. 97-106)
- “Juvenile Delinquency and Urban Areas” by Clifford R. Shaw and Henry D. McKay (Cullen pp. 107-113)
- “Collective Efficacy and Crime” by Robert J. Sampson, Stephen W. Raudenbush, and Felton Earls (Cullen pp. 121-126)

*Subcultural Theories of Crime: The Code of the Street*

Readings:
- “The Code of the Street” by Elijah Anderson (Cullen pp. 154-165)
Week 4

“It Wasn’t My Fault: Where I Live Made Me Do It”
Macro-Criminological Theorizing: Culture and Structure

M  5/30  No Class – Memorial Day
Quiz 3 closes, 12:30pm

W  6/1  Quiz 4 opens, 5pm
Group Exercise III (presented)
Group Exercise IV (assigned)

The Anomie and Strain Tradition of Criminological Theorizing
Readings:
• “Anomie/Strain Theories of Crime” (Cullen pp. 166-176)
• “Social Structure and Anomie” by Robert K. Merton (Cullen pp. 177-185)
• “Crime and the American Dream” by Richard Rosenfeld and Steven F. Messner (Cullen pp. 191-201)
• “Pressured Into Crime: General Strain Theory” by Robert Agnew (Cullen pp. 202-211)

Critical Criminology: The Upper Class vs. the Lower Class
Readings:
• “Critical Criminology: Power, Peace, and Crime” (Cullen pp. 284-294)
• “Criminality and Economic Conditions” by Willem Bonger (Cullen pp. 295-302)
Week 5

“My Friends Made Me Do It” vs. “My Parents Should’ve Stopped Me”

Social Learning vs. Social Control

M 6/6  Quiz 4 closes, 12:30pm
Group Exercise IV (presented)

Learning to be a Criminal: Social Learning Theories
Readings:
- “Learning to be a Criminal: Differential Association, Subcultural, and Social Learning Theories” (Cullen pp. 127-135)
- “A Theory of Differential Association” by Edwin H. Sutherland and Donald R. Cressey (Cullen pp. 136-139)

W 6/8  Quiz 5 opens, 5pm
Final Course Project (assigned)

Control Theories of Crime
Readings:
- “Varieties of Control Theory” (Cullen pp. 212-220)
- “Techniques of Neutralization” by Gresham M. Sykes and David Matza (Cullen pp. 221-228)
- “Social Bond Theory” by Travis Hirschi (Cullen pp. 229-237)

Criminal Offending Across the Life Course: Age-Graded Social Bond Theory
Readings:
- “Developmental Theories: Crime and the Life Course” (Cullen pp. 511-524)
- “A Theory of Persistent Offending and Desistance from Crime” by John H. Laub and Robert J. Sampson (Cullen pp. 545-551)
Week 6

Neglected Populations
Controlling Crime: What Works and What Doesn’t

M 6/13  Quiz 5 closes 12:30pm

Race and the Criminal Justice System: Theory and Implicit Bias
Readings:
• “Paying Attention to Race: Theoretical Developments” (Cullen pp. 558-569)
• “Getting Played” by Jody Miller (Cullen pp. 570-577)
• Take the Race IAT (Implicit Association Test) at https://implicit.harvard.edu/implicit/takeatest.html

Sex and Crime: Explaining Crime from a Gendered Perspective
Readings:
• “Feminist Theories: Gender, Power, and Crime” (Cullen pp. 325-338)
• “A Feminist Theory of Female Delinquency” by Meda Chesney-Lind (Cullen pp. 347-353)
• “Toward a Gendered Theory of Female Offending” by Darrell J. Steffensmeier and Emilie Allan (Cullen pp. 366-374)

W 6/15  Quiz 6 opens, 5pm

Labelling Theory: “Blame it on the Criminal Justice System”
Readings
• “Labeling, Interaction, and Crime: Societal Reaction and the Creation of Criminals” (Cullen pp. 253-262)
• “Primary and Secondary Deviance” by Edwin M. Lemert (Cullen pp. 263-266)

Crime Control: Using Theory to Guide Policy
Readings
• “Imprisoning Communities” by Todd R. Clear (Cullen pp. 649-658)

Alternative to Mass Incarceration: Broken Windows Policing, Rehabilitation, and Crime Prevention
Readings
• “Broken Windows” by James Q. Wilson and George L. Kelling (Cullen pp. 497-510)
• “Saving Children from a Life of Crime” by David P. Farrington and Brandon C. Welsh (Cullen pp. 667-676)
### Week 7

*Theory at work*
