

Happy Earth Day!

How can you celebrate in the lab?

Practice Green Chemistry!

- Review your SOPs for:
 - o hazardous chemicals that can be substituted
 - o opportunities to minimize waste production
- Incorporate sustainable materials in your lab:
 - o energy efficient lighting
 - o solar-powered batteries

Utilize our Chemical Recycling Program!

- Update your chemical inventory and mark unwanted chemicals as surplus
- Before ordering new materials, check the surplus inventory
 - o Minimize cost
 - o Reduce waste

Reuse Empty Bottles!

- Use empty glass bottles to accumulate hazardous waste
 - o Rinse bottle before reusing
- Label unwanted empty bottles for recycling

Events Online and on Campus!

- **The Office of Sustainability** in partnership with Eversource is offering exclusive discounts on energy efficient LED light bulbs through **April 26th**! [Purchase here.](#)
- **Art on the Green: April 22nd @ 11:00**
- **Earth Day Live with Keep America Beautiful**
 - o Live-streaming at 12pm at earthday.org, YouTube, Facebook, Twitch, and Twitter
