

I have been a Senator in the Financial Affairs committee since Fall 2022. Me and my team were responsible for managing the budget of approximately \$400k which is the GSG Budget.

I have gained knowledge and learnt about how things work in the Financial Affairs committee. I am looking forward in proper designing and managing the GSG budget with proper utilisation of funds to every segment.

My and my team looked over many funding requests and analysed how much to allocate to any Individual student for a conference or the funding requests to any student club organization for conducting any professional and cultural event. Being a senator in the financial affairs committee, I also had to keep a check on the GSG operational budget which we spent on conducting many huge GSG sponsored events like the Fall Brunch, Spring Welcome and the Masquerade Ball event. I was also responsible for giving updates to Student Activities Business Office (SABO).

As I have worked hard in the Financial Affairs committee since Fall 2022, I have gained knowledge, good insights and learned many new things on the way, I look forward in serving as the VP of Financial Affairs in the Graduate Student Government at Northeastern University for the year academic year 2023-2024.
