

Being a student leader is a great responsibility for any graduate student and being able to help students all over the campus is a gift. I am Mohit Rajendra Mhamunkar, Senator at the Graduate Student Government currently working under the Finance Committee on various financial and organizational activities for GSG and student organizations. Previously I was working under the Student Affairs committee where I worked on collaborating with various student organizations and departments all over the university, in addition to that I have worked on various events throughout the year for GSG and acted as a liaison between student and GSG where they addressed their problems and we as student leaders forwarded it to proper authorities. I also attended the NAGPS conference where I got a chance to collaborate with student leaders from other universities around the northeast region. Apart from that I am also a Global Student Mentor & teaching Assistant, where I mentor and guide students to resources and help solve their doubts related to the university and academics.

As a candidate for Vice President of Programs & Operations, something that motivated me to apply for the following position was being a part of GSG, for the past 14 months I have been a part of Graduate Student Government where I was involved in various events and these events not only gave me experience with programs and operations but also gave me the driving force and opportunity of leading the following committee. My goals as the VP of Programs & Operations would be working towards a fiscal calendar along with my peers for various events conducted by GSG. This would help us organize things but will also help us plan the financial budget for GSG. Apart from that welcoming new senators to the committee and nurturing new ideas for events would be a milestone. Carrying forward the legacy of the previous E-Board is a key driving force as we have started various new events and traditions.

I hope you may find my application worthy for nomination as a candidate for VP of Programs & Operations, if you have any doubts you may reach out to me on mhamunkar.m@northeastern.edu.
