HEALTH SAVINGS ACCOUNT (HSA)

Using your HSA

If you enroll in the High Deductible PPO with HSA, you can put aside pre-tax dollars to pay for current and future health care expenses for yourself and your qualified dependents. In January, Northeastern makes a contribution to your account to help you pay for medical expenses ($500 for individual coverage, $1,000 for family coverage).

- Contribution limits have increased for 2019. Individuals can increase their contributions by $50, to $3,000; families can increase their contributions by $100, to $6,000.
- If you’re age 55 or older, you may contribute an additional $1,000 in annual catch-up contributions, which can begin any time during the year in which you turn 55.

HSA TIPS

✔️ You are not eligible to make or receive HSA contributions if you are enrolled in a non-HSA qualified health plan (for example, your spouse’s non-HDHP medical plan).

✔️ Under IRS rules, you (and your spouse, if applicable) cannot have both an HSA and a Health Care Reimbursement Account. If you enroll in the High Deductible PPO with HSA for 2019 and you have a 2018 Reimbursement Account, you’ll need to deplete the balance in your account by December 31, 2018 in order to make or receive contributions in January.

✔️ If you’re enrolled in Medicare Part A or B, you are not eligible to contribute to the HSA or receive employer contributions to your HSA. However, if you have an existing HSA funded by contributions made prior to enrolling in Medicare, you may continue to invest your money and use it for qualified expenses.
DENTAL
The Delta Dental Value Plus and Value plans will both remain the same in 2019.

2019 Dental Plan Rates
Dental plan premiums are increasing no more than $1.55/month for family coverage or $0.49/month for individual coverage. Northeastern will continue to contribute 70% of the cost of the plan you select.
