10/3 Does Active Learning Really Improve STEM Education? 12:30—1:30 pm
10/17 Can Experiential Learning Make Students More Socially Responsible? 12:30—1:30 pm
10/31 We Use Tests to Assess Learning—but Can They Also Improve It? 12:30—1:30 pm

Did you know?
Note-taking by hand works better.
Taking notes by hand can lead to deeper learning and retention. Even when students using electronic devices are on task, they are more likely to take notes by transcribing content verbatim, which studies have shown indicates shallow processing. Because students generally cannot write as fast and they can type, taking notes by hand forces them to synthesize and prioritize which information is more important, thus leading to deeper and more active processing.

Inquiry Groups
A discussion group around a specific topic of mutual interest in teaching and learning in higher education

10/6 Online Teaching & Learning Inquiry Group 12:00—1:00 pm
10/14 Flipped Classroom Inquiry Group 1:30—3:00 pm
10/21 Online Teaching & Learning Inquiry Group 2:00—3:00 pm
10/28 Flipped Classroom Inquiry Group 1:30—3:00 pm

Co-op Programming
Programming to support Co-op Faculty as they incorporate revisions to the co-op curriculum

10/14 Integrating Reflections & Learning Outcomes in the Classroom in Preparation for Co-op 10:30 am—12:00 pm
Co-op Learning Outcomes, Reflections, and Assessment Software: Hands-on Training for the New System 12:00—1:00 pm
10/15 Co-op Teaching Exchange: Mindset & Mindfulness 2:00—3:30 pm
10/16 Co-op Teaching Exchange: Motivation & Deliberate Learning 2:00—3:30 pm
10/21 Integrating Reflections & Learning Outcomes in the Classroom in Preparation for Co-op 2:00—3:30 pm
Co-op Learning Outcomes, Reflections, and Assessment Software: Hands-on Training for the New System 3:30—4:30 pm
10/29 Co-op Teaching Exchange: Mindset & Mindfulness 2:00—3:30 pm
