

IN CELEBRATING

Come celebrate Chemical Engineering at the 3rd Annual Northeastern University Chemical Engineering Day!

FEBRUARY 22, 2017

12:00 pm - 1:00 pm 240 Egan Research Center	Distinguished Seminar by Dr. Paula T. Hammond, Professor at MIT in the Department of Chemical Engineering <i>"Nano-layers for Drug Delivery: From Cancer to Wound Healing"</i>
1:00 pm - 2:00 pm 240 Egan Research Center	Pizza Mixer for Undergraduate and Graduate Students Mingle with students from all class years and get to know your fellow chemical engineers.
2:00 pm - 4:00 pm 440 Egan Research Center	Games and Activities <i>Nitrogen Ice Cream:</i> Enjoy a delicious treat with a Chemical Engineering twist. <i>DIY Lava Lamp:</i> Apply chemical principles to generate real-time color fluxes inside a dynamic environment. <i>Silly Putty:</i> 1% of ingredient + 99% of creativity to make your smart silly putty. <i>Elephant's Toothpaste:</i> Using an exothermic reaction watch as foam moves right in front of your eyes!
5:00 pm - 6:00 pm 240 Egan Research Center	Trivia led by Professor Steve Lustig <i>ChemE Trivia: 100% easier than a Satvat test</i> Join the annual tradition of trivia organized by the GSC.

This event is part of **National Engineers Week**, for the full schedule please visit northeastern.edu/neweek

** Events are free and open to the public **
