College of Engineering Robotics Showcase

See, Experience, Learn

Friday, February 23, 2018
12:00 pm - 2:00 pm | 140 & 142 ISEC

Mobile, flying, driving, and swimming robots plus robotics research innovations! See and learn about them all. A variety of robots will be on display including an autonomous car that drives on its own; an underwater autonomous vehicle that explores the depths of the sea; JetYak an autonomous kayak used to explore where man cannot; a variety of mobile robots and drones, including those to fly. Students will also be on hand displaying and sharing their innovative robotics research and experience.
