Innovations in Oral Health

Innovative, replicable, scalable, sustainable interprofessional education model:

• Integrate oral health into interprofessional, team-based health education across multiple academic programs.

• Promote a team-based, collaborative practice approach to oral health promotion and disease prevention in primary care and community-based settings.

You’re Invited
Whose Story Is It, Anyway?
A candid conversation about empathy and health care

Lisa Simon is a dental resident at Cambridge Health Alliance. She graduated from Harvard School of Dental Medicine in 2014, earning the Gerald Shklar award for academic excellence and the Lois K. Cohen award for Global Health. Lisa’s work focuses on oral health in the primary care setting and access to dental care for vulnerable populations. Her narrative nonfiction has been published by the Consortium of Universities for Global Health and the Journal of the American Medical Association.
A Look Ahead …
