

Session 2
Case Study Discussion: Mr. Jones

1. Why do you think Mrs. Jones' condition progressed to such an extreme?
2. What characteristics of an effective team are missing in Mr. Jones' case?
3. What could the primary care provider have done differently?
4. Could the primary care provider have involved any other health professional earlier in Mr. Jones' case?
5. Aside from health outcomes, were there additional consequences of Mr. Jones' treatment?
